Patent Assignment

This United States Patent Assignment ("Assignment") is made by **David L. Parrish**, a citizen of the United States with an address of 835 Bedford Hills Drive, Earlysville, Virginia 22936 ("Assignor").

Recitals:

Whereas, Assignor is the inventor of the subject matter disclosed and claimed in a United States Patent Application entitled

**Method and System for Conducting
High Speed, Symmetric Stream Cipher Encryption**

(the "PATENT APPLICATION"), a utility patent application filed concurrently with a recordation of this assignment under the attorney docket number shown above;

Whereas, Assignor owns the entire right, title and interest in and to the PATENT APPLICATION and the invention therein disclosed and claimed (collectively, the "PATENT APPLICATION AND INVENTION"), and has the unrestricted right to sell, assign and transfer such PATENT APPLICATION AND INVENTION; and

Whereas, **Grey Heron Technologies, LLC**, a limited liability company organized under the laws of Virginia and having a place of business in Charlottesville, Virginia (the "Assignee"), desires to acquire the entire right, title and interest in and to the PATENT APPLICATION AND INVENTION.

Assignment.

Now, therefore, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor has sold and hereby sells, assigns, transfers and conveys unto Assignee, its successors and assigns the Assignor's entire right, title and interest in and to the PATENT APPLICATION AND INVENTION and in and to any and all applications based thereon, all continuations, continuations-in-part, continuing prosecution applications, or divisions thereof, and in all letters patent of the United States of America and all countries foreign thereto and reissues and extensions thereof which may be granted from the PATENT APPLICATION AND INVENTION, for the full term of such letters patent, together with the right to claim the priority of any patent application included therein, to be held and enjoyed by the Assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by the Assignor if this assignment and sale had not been made.

Assignor covenants and agrees, on his own behalf and on behalf of his successors and assigns, without further compensation, to promptly at any time upon the request of the Assignee,

its successors and assigns, provide such further information and execute such further assignments and documents and do all lawful acts with respect to the PATENT APPLICATION AND INVENTION that may be necessary or desirable to perfect title in the Assignee, its successors or assigns, and to assist in obtaining patents relating to the PATENT APPLICATION AND INVENTION, or in any interference proceedings or for any divisions, continuations or continuation-in-part patent applications relating to the PATENT APPLICATION AND INVENTION.

Assignor warrants and represents to Assignee that Assignor has full and unencumbered legal and equitable title to the PATENT APPLICATION AND INVENTION and has not granted any rights in the PATENT APPLICATION AND INVENTION to any other person, firm, corporation or entity.

Witness the following signature, made as of the date set forth.

Assignor:

David L. Parrish
