PATENT ASSIGNMENT

**CRANIOMED, INC.
MICHAEL SEAY**

WHEREAS, Craniomed, Inc., a California corporation, having a place of business at 11825 Trapani Court, Moorpark, California 93021 ("**Assignor**"), is the owner of record of U.S. Patent Application No. 10/624,735 for United States Letters Patent filed on July 21, 2003 and entitled **SELF-DRILLING, SELF-TAPPING BONE SCREW**, as evidenced in the U.S. Patent and Trademark Office Patent Assignment Abstract of Title, Reel/Frame No. 014319/0258; and,

WHEREAS, Michael Seay, residing at 1592 Anacapa Dr. Camarillo, California 93010 ("**Assignee**"), desires to acquire by formal, recordable assignment, a one-half (50%) right, title and interest in the title, together with one-half (50%) right of priority, in and to the Invention for which U.S. Application No. 10/624,735 for United States Letters Patent was filed on July 21, 2003, and in any and all other applications for patent based thereon, including divisions, continuations and reissues thereof, as well as all foreign counterparts together with all patents issuing on any of the aforesaid applications, the same to be jointly held and enjoyed by Assignees, their successors, assigns or other legal representatives, throughout the full terms of all said patents which may be granted.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor hereby sells, assigns and transfers to Assignee, a one-half (50%) right, title and interest in and to the Invention for which U.S. Application No. 10/624,735 for United States Letters Patent was filed on July 21, 2003, and any Letters Patent that might be granted for the Invention in the United States and throughout the world, including the right to jointly file foreign applications directly in the names of Assignees and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

Further, Assignor agrees that, upon request and without further compensation, but at no expense to Assignor, it and its legal representatives and assigns will perform all lawful acts, including the execution of papers and the giving of testimony, that might be necessary or desirable for jointly obtaining, sustaining, reissuing or enforcing Letters Patent(s) in the United States and throughout the world for the Invention for which U.S. Application No. 10/624,735 for

United States Letters Patent was filed on July 21, 2003, and for perfecting, recording or maintaining the joint title of Assignor and Assignee, their successors and assigns, to the Invention, the application(s), and any Letters Patent(s) granted for the Invention in the United States and throughout the world.

Assignor represents and warrants that it has not granted and will not grant to others any rights inconsistent with the rights granted by this Assignment.

Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Letters Patent(s) granted for the Invention, whether on U.S. Application No. 10/624,735 filed on July 21, 2003 or on any subsequently filed division, continuation, continuation-in-part or reissue application, to Assignee, its successors and assigns, as the assignee of the Assignor's one-half (50%) interest in the Invention.

IN WITNESS WHEREOF, Assignor has executed this Assignment.
