ASSIGNMENT

The undersigned is a named inventor (the "Inventor") on a United States patent application entitled **Ultra-Fine Textured Digital Lithographic Imaging Plate and Method of Manufacture** (the "Application") for inventions disclosed or claimed therein (the "Invention(s)"), which Application includes subject matter for which the Inventor has a prior obligation to assign to Palo Alto Research Center Incorporated, a Delaware Corporation, on behalf of itself, its successors and assigns, and its legal representatives ("PARC").

For valuable consideration, the receipt of which is hereby acknowledged, the Inventor hereby confirms that he has sold, assigned, and transferred to PARC, and to the extent has not previously done so, hereby does sell, assign, and transfer the entire and exclusive right, title and interest in the Application and the Invention(s), in and for the United States, its territories, and all foreign countries, including all applications, patents, design registrations and publications obtained or derived therefrom, worldwide, and all priority rights under all present or future conventions and treaties, and any provisional applications for which priority is claimed in the Application; and

- (1) requests the U.S. Commissioner of Patents to issue all U.S. Letters Patent granted thereon to PARC;
- (2) agrees that PARC may apply for and receive all foreign Letters Patent thereon;
- (3) agrees to execute all papers and take all actions necessary or desirable in connection therewith requested by PARC.
