ASSIGNMENT OF PATENT

Patent No. 6,332,790

Issued: December 25, 2001

For good and valuable consideration in hand paid, the receipt and sufficiency whereof are hereby acknowledged Union Machinery Co., Ltd., an entity organized under the laws of Japan, (Assignor), hereby sells, assigns, transfers and sets over to SONY CORPORATION, a corporation organized under the laws of Japan, having an address at 7-35, Kitashinagawa, 6-chome, Shinagawa-ku, Tokyo, Japan (Assignee) and to the successors and assigns of Assignee, its entire right, title and interest in the invention or improvements of the undersigned disclosed in U.S. Patent No. 6,332,790 titled CARD CONNECTOR and in said U.S. Patent issued for the full term for which said Patent may be granted, reissued or extended, as fully and entirely as the same would have been held and enjoyed by Assignor had this assignment and sale not been made; together with all claims for damages by reason of past infringement of said Patent with the right to sue for and collect the same.

Assignor warrants itself to be the owner of the entirety of its right, title and interest in said invention or improvements and to have the right to make this assignment, and further warrants that there are no outstanding prior assignments, licenses, or other encumbrances on the interest herein assigned. Assignor hereby covenants that no other assignment, sale, agreement or encumbrance will be made or entered into which would conflict with this sale and assignment.

Assignor further covenants that Assignee will, upon its request and at the expense of Assignee, be provided promptly with all pertinent facts and documents relating to said invention and said Letters Patent and legal equivalents as may be known and accessible to Assignor and will testify as to the same in any interference, litigation or proceeding related thereto and will promptly execute or have executed, to the best of its ability, and deliver to Assignee or its legal representatives any and all papers, instruments or affidavits required to apply for, obtain, maintain, issue and enforce said application, said invention and said letters patent and foreign equivalents thereof which may be necessary or desirable to carry out the purposes thereof.
