INTELLECTUAL PROPERTY SECURITY AGREEMENT

This Intellectual Property Security Agreement (this “**Intellectual Property Security Agreement**”) is entered into as of August 2, 2013 by and between DBD Credit Funding LLC., a Delaware corporation (“**Fortress**”), as administrative agent for the below-defined Lenders (in such capacity, “**Administrative Agent**”) and the Grantors listed on the signature pages hereto (such Grantors being both individually and collectively referred to herein as the context requires as the “**Grantor**”).

RECITALS

A. ALIPHCOM, a California corporation (“**Borrower**”) has entered into that certain Credit Agreement, by and among Administrative Agent, the lenders from time to time party thereto, (each a “**Lender**” and collectively the “**Lenders**”) Borrower, and the other Loan Parties party thereto, dated July [24], 2013 (as amended, restated or otherwise modified from time to time, the “**Credit Agreement**”), pursuant to which the Lenders have agreed to make credit extensions available to Borrower pursuant to the terms of the Credit Agreement.

B. Pursuant to that certain Pledge and Security Agreement by and among Administrative Agent, Grantor and the other parties named therein, dated August 2, 2013 (as amended, restated or otherwise modified from time to time, the “**Security Agreement**”), Grantor has agreed to grant to Administrative Agent, for the benefit of Lenders, a security interest in all of Grantor’s right, title and interest, whether presently existing or hereafter acquired, in and to all of the Collateral, including certain Copyrights, Trademarks and Patents to secure the obligations of Borrower under the Credit Agreement. Capitalized terms used but not otherwise defined herein shall have the meanings given to them in the Security Agreement, or if not defined therein, in the Credit Agreement.

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged, and intending to be legally bound, Grantor hereby represents, warrants, covenants and agrees as follows:

AGREEMENT

To secure its obligations under the Credit Agreement, Grantor grants to Administrative Agent, for the benefit of Lenders, a security interest in all of Grantor's right, title and interest in and to the registered, issued and applied-for Copyrights, Trademarks and Patents listed on Schedules A, B and C hereto, respectively (collectively, the “**Intellectual Property Collateral**”).

Notwithstanding the foregoing, the Intellectual Property Collateral does not include any “intent-to-use” trademarks.

This security interest is granted in conjunction with the security interest granted to Administrative Agent under the Security Agreement. The rights of Administrative Agent with respect to the security interest granted hereby are in addition to those set forth in the Security Agreement and the other Loan Documents, and those which are now or hereafter available to Administrative Agent as a matter of law or equity. Each right, power and remedy of Administrative Agent provided for herein or in the Security Agreement or any of the Loan Documents, or now or hereafter existing at law or in equity shall be cumulative and concurrent and shall be in addition to every right or power provided for herein and the exercise by Administrative Agent of any one or more of the rights, power or remedy provided for in this Intellectual Property Security Agreement, the Security Agreement or any of the other Loan Documents, or now or hereafter existing at law or in equity, shall not preclude the simultaneous or later exercise by any Person, including Administrative Agent, of any or all other rights, powers or remedies.

This Intellectual Property Security Agreement shall be governed by, and construed and enforced in accordance with, the laws of the State of New York, excluding conflicts of law principles that would cause the application of laws of any other jurisdiction.

This Intellectual Property Security Agreement may be executed in any number of counterparts, and by different parties on separate counterparts, each of which, when so delivered shall be deemed an original, but all of which counterparts shall constitute but one and the same agreement.
