ASSIGNMENT

WHEREAS, as a below named inventor, I have invented certain new, original and useful improvements for a

DEFIBRILLATOR WITH BRIDGE BACK AND UTILITY MODULE

for which an application for a United States Patent was filed on December 21, 2012 and bears Application Number 29/440,594 (hereinafter "Application").

AND, WHEREAS, Physio-Control, Inc., a corporation operating under the laws of the state of Washington, and having an address at 11811 Willows Road NE, Redmond WA 98052, hereinafter called the "Assignee," is desirous of acquiring the entire right, title, and interest in and to said Application and the inventions and improvements therein disclosed,

NOW, THEREFORE, for good and valuable consideration paid to me by said Assignee, the receipt of which is hereby acknowledged, we as the inventors, or I as one of the Inventors, hereinafter the Assignor(s), do hereby assign, sell and transfer unto said Assignee the full and exclusive right, title and interest in and to said Application and the inventions and improvements therein disclosed for the United States and all foreign countries and any Letters Patent which may issue therefor in the United States and all foreign countries, and all conversions, divisions, reissues, continuations, continuations-in-part, renewals, extensions, and/or other applications or patents thereof. Such assignment also includes the right to claim priority to the Application under any law, rule, treaty, or convention. Such assignment extends to the full ends of the terms of these applications and patents as fully and entirely as the same would have been held and enjoyed by me had this Assignment not been made. Said full and exclusive right, title, and interest referred to above includes all rights to all past, present and future claims for infringement of any patent resulting from said applications including the right to grant licenses, to bring lawsuits, and to recover damages for any past, present, and future infringement, whether known or unknown, now existing or hereafter arising.

We as the Inventors, or I as one of the inventors, covenant that I/we am/are the lawful owner(s) of said Application, inventions and improvements, that the same are unencumbered, that no license has been granted to make, use or vend the said inventions or improvements or any of them, and that I have the full right to make this Assignment.

And for the consideration aforesaid, I agree individually and, if applicable, jointly that I will communicate to said Assignee or the representatives thereof any facts known to me respecting said inventions and improvements, and will, upon request but without expense to me, testify in any legal proceedings, sign all lawful papers, execute all conversion, divisional, reissue, continuation, continuation-in-part, renewal, extensions, and/or other applications or patents thereof, make all rightful oaths, and generally do all other and further lawful acts deemed necessary or expedient by said Assignee or by

counsel for said Assignee to assist or enable said Assignee to obtain and enforce full benefits from the rights and interests herein assigned. This Assignment shall be binding upon my heirs, executors, administrators and/or assigns, and shall inure to the benefit of the heirs, executors, administrators, successors and/or assigns, as the case may be, of said Assignee.

The Commissioner of Patents and Trademarks is hereby authorized and requested to issue patents to the Assignee in accordance with the terms of this Assignment.
