ASSIGNMENT AND RELEASE

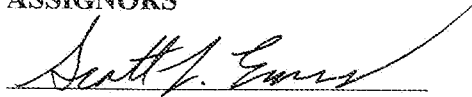

This Assignment and Release ("Assignment" herein) is executed between those parties signing as Assignors ("ASSIGNORS" herein) and Internet Transaction Solutions, Inc., a Delaware corporation ("ASSIGNEE" herein).

Whereas, ASSIGNORS, together with Internet Transaction Solutions, Inc. are the full and exclusive owners of all rights, title and interests to certain inventions, systems, copyrights, trademarks, service marks, domain names, and other properties and works identified and set forth in Exhibit A hereto, and which shall include all related trade secrets, trade names, patent subject matter, know-how embodied therein, copyrights and other works or authorship ("property"), and desire to transfer all rights to said property to ASSIGNEE and to release any and all claims related to such property and the business of ASSIGNEE; and,

Whereas, ASSIGNEE desires to assure its acquisition of all rights and interests in, to and under said property, including, but not limited to, any United States Letters Patent and any foreign patents to be obtained therefor, all trademarks, service marks, domain names, copyrights, and trade secrets, and to obtain releases from any and all claims related to such property and the business of ASSIGNEE;

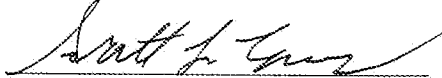

NOW, THEREFORE, TO ALL WHOM IT MAY CONCERN: Be it known that in consideration of the payment by ASSIGNEE to each of the ASSIGNORS of the sum of One Dollar and 00/100 (\$1.00) and other good and valuable consideration, receipt of which is hereby acknowledged, each of ASSIGNORS hereby sells, assigns and transfers to ASSIGNEE all right, title and interest to the property, including all copyrights, to said property and all Letters Patent of the United States to be obtained therefor on any application or any continuation, division, renewal, substitute, or reissue thereof for the full term or terms for which the same may be granted and any and all applications for patents, copyrights, trademarks and service marks in any and all countries and any patents, copyrights, trademarks or service marks issuing thereon, including divisions, continuances, reissues, and extensions thereof, and all rights of priority resulting from said U.S. patent application, and authorizes and requests any official whose duty it is to issue patents, copyrights, trademarks, or service marks, to issue same on said property to said ASSIGNEE or its successors, assigns and nominees, and each of ASSIGNORS agrees that on request and without further consideration but at the expense of ASSIGNEE, each of ASSIGNORS will communicate to ASSIGNEE, or its representatives or nominees, any facts known to ASSIGNORS respecting said property and testify in any legal proceedings, sign all lawful papers, execute all divisional, continuances and reissue applications, make all rightful oaths, and generally help said ASSIGNEE, its successors, assigns, and nominees, to obtain and enforce proper patent, copyright, trademark and service mark protection for said property in any and all countries, and each of ASSIGNORS, on behalf of their heirs, beneficiaries, executors, administrators and subsequent assigns does hereby release, waive and abandon any and all direct or indirect claims inconsistent with ASSIGNEE's complete full and exclusive ownership of the property. Upon the request of ASSIGNEE, and payment of any applicable reasonable fees and expenses each of ASSIGNORS commits to and shall provide such assistance as is required to enable ASSIGNEE to realize the full value and benefit of the property and to enable any inventions or systems to function optimally, provided that such assistance is not unreasonable in scope.
