X100 TECHNOLOGY TRANSFER AND LICENSING AGREEMENT

THIS AGREEMENT is between:

- Stichting Centrum voor Wiskunde en Informatica, located at Kruislaan 413, Amsterdam, The Netherlands (hereinafter called "CWI"),
- VectorWise B.V., located in Amsterdam, The Netherlands,
- Peter Boncz, Marcin Zukowski, Niels Nes and Sándor Héman (hereinafter called the "inventors"), all living in The Netherlands.

WHEREAS, the X100 database system software prototype (hereinafter called the "Original X100 Technology"), of which all source code and documentation is described in Appendix A, has been developed by the inventors as part of their work while employed at CWI, as a consequence of which the copyrights and all related (moral) rights to the Original X100 Technology are held by CWI, and the inventors hereby explicitly waive any copyrights and related (moral) rights they might have to the Original X100 Technology in favor of CWI.

WHEREAS, the inventors have founded the company VectorWise Holding B.V.,

WHEREAS, VectorWise Holding B.V. has founded the spin-off company VectorWise S.V., that will own and further develop the Original X100 Technology into a product, therefore causing the need for a transfer of all the intellectual property rights in and to the Original X100 Technology from CWI to VectorWise B.V. (hereinafter called the "IP Rights Sale and Assignment"),

WHEREAS, all parties agree that scientific research at CWI on the subject matters around the X100 Technology should be allowed to continue, therefore creating the need for a non-exclusive non-commercial license of the Original X100 Technology to CWI (hereinafter called the "Academic License").

WHEREAS, VectorWise Holding B.V. intends to enter with Ingres Corp., a corporation formed under the laws of Delaware, US (hereinafter called "Ingres") into an option agreement (of which a draft version is enclosed as Appendix B, hereinafter referred to as the "Option Agreement"), whereby Ingres would be granted an option to acquire VectorWise B.V. in its entirety, or to acquire from VectorWise B.V. (parts of) the Original X100 Technology (hereinafter called the "Option").

WHEREAS, all parties recognize that CWI should be allowed to distribute the Original X100 Technology on an open source basis should Ingres elect not to exercise the Option (hereinafter called the "Conditional License").

NOW THEREFORE, the parties hereto hereby agree for the considerations hereinafter enumerated:

Section 1 - IP Rights Sale and Assignment

- 1.1 Subject to the rights granted to CWI under Sections 2 and 3 below, CWI hereby sells and assigns to VectorWise B.V. all intellectual property rights (including all copyrights and all moral rights) to the Original X100 Technology, which sale and assignment VectorWise B.V. hereby accepts. To the extent these moral rights, or parts thereof, cannot be

assigned, CWI hereby waives the right to exercise these moral rights against VectorWise B.V. or any third party obtaining all or part of the Original X100 Technology.

- 1.2 CWI shall provide VectorWise B.V. within [7] days after the signing of this Agreement with the possession ("bezitsverschaffing") of the source code, any documentation and carriers belonging to the Original X100 Technology.

Section 2 - Academic License

VectorWise B.V. hereby grants to CWI a non-exclusive, worldwide, irrevocable, perpetual, non-transferable license, to reproduce, use, and modify the Original X100 Technology solely for non-commercial educational and non-commercial research purposes. The Academic License cannot be transferred or sub-licensed by CWI to any other party.

Section 3 - Conditional License

VectorWise B.V. hereby grants to CWI a non-exclusive, worldwide, perpetual, irrevocable (except as set forth below), non-transferable license to use and sublicense the Original X100 Technology as open-source software, under the MonetDB1.1 License (enclosed as Appendix C), which license shall come into effect on June 1, 2011. This Conditional License can be revoked only, upon the earlier of either (i) a revocation statement signed by the majority of the inventors and delivered in writing to CWI before June 1, 2011, or (ii) automatically upon exercise of the Option by Ingres. In the event of either (i) or (ii), the Conditional License will not come into effect.

Section 4 - Warranties

- 4.1 CWI warrants that it owns all intellectual property rights to the Original X100 Technology, that it has full authority to enter into this Agreement and is entitled to assign the intellectual property rights to the Original X100 Technology. CWI warrants that the rights to the Original X100 Technology are not the subject of any license, other than the licenses listed in this Agreement. CWI warrants that it is not engaged in, nor has any knowledge of, any pending litigation relating to the Original X100 Technology, nor is aware of any unauthorised use or infringement by any third party of the Original X100 Technology. CWI warrants that the rights to the Original X100 Technology are not subject to any lien, attachment, encumbrance or other rights for the benefit of third parties.
- 4.2 Except for the above, CWI makes no warranties, express or implied, with regard to the Original X100 Technology or other information provided under this Agreement. In particular, but without limitation, CWI makes no warranty of fitness for a particular use, accuracy or non-infringement. Furthermore, CWI assumes no obligation to furnish assistance of any kind whatsoever or to furnish additional information or documentation.

B. J. A. J.

Section 5 - Consideration

No monetary royalties are payable to either party as compensation for the IP Rights Sale and Assignment, the Academic License or the Conditional License. In consideration for the IP Rights Sale and Assignment, CWI will be offered a stake in VectorWise B.V. by allowing CWI through its spin-off subsidiary CWI Incubator B.V. to acquire 22.500 out of the total of 85.000 initially issued shares of VectorWise Holding B.V. at nominal value (EURO 0.22 per share).

Section 6 - No rescission, no nullification

To the extent permitted by law, the parties hereby waive their rights under Articles 6:266 to 6:272 inclusive of the Netherlands Civil Code to rescind ("ontbinden"), or demand in legal proceedings the rescission ("ontbinding") of, this Agreement.

Section 7 - Partial invalidity

In the event that a provision of this Agreement is deemed invalid, illegal, not binding, or unenforceable (either in whole or in part), the remainder of this Agreement shall continue to be effective in the extent that, in view of the substance and purpose of this Agreement, such remainder is not inextricably related to and therefore inseverable from the invalid, illegal, not binding or unenforceable provision. The parties shall make every effort to reach agreement on a new clause that differs as little as possible from the invalid, illegal, not binding or unenforceable provision, taking into account the substance and purpose of this Agreement.

Section 8 - Amendment

Except as otherwise provided in this Agreement, no amendment to this Agreement shall have any force or effect unless it is in writing and signed by the parties.

Section 9 - Applicable Law and competent court

This Agreement shall be governed and construed in accordance with the laws of the Netherlands, and shall benefit and be binding upon the parties hereto and their respective successors and assigns. Any dispute arising in connection with this Agreement or any agreement resulting therefrom shall be submitted to the exclusive jurisdiction of the competent court of Amsterdam, the Netherlands.

relative to the vector $\mathbf{V}$. The best solution is a collection of the 10 nearest neighbors of $\mathbf{V}$ in the space of $\mathbf{V}$ and the mean of the corresponding and normalized values $\mathbf{V}_{\text{mean}}$ is used in this process.

133. A second point regarding zoning. One of the issues in zoning relating to local zoning actions brought suit is impact to the child-reared children on whom certain tax savings will be realized. In this case, the respondents are careful not to use the word "impact" for equity is only ascertained by a case-by-case basis. Impact is determined by the relevant government to the zoning plan, although a child policy parent, which ultimately could be possible, and of the tax case, answer for the Section 4800.

perceptual) thought that the experience of a "weightless" sensation of "floating" in a "light" environment is to be simulated by means of a specially designed water tub. Because of the expense and the large volume of water, construction and maintenance costs were too high. The expense was also due to the fact that the tub was too small to accommodate a regular-size person, necessitating the use of a small child, and the child was subjected to a high level of water requirements and was thus exposed to health hazards, as well as the increased maintenance with time. If the child's support was applied to a water level outside the body,

10353500, 1989, 158 pp., \$29.95. *Major Neurochemicals in the Brain*, by R. L. Wurtman. With the assistance of his colleagues, the author has written a book that is both a review of the current state of knowledge of the neurochemistry of the brain and a practical guide to the use of neurochemicals in the diagnosis and treatment of brain disorders. The book is written for the neurologist, but it is also a useful reference for the neurochemist. The book is written in a clear, concise, and readable style. It is a valuable addition to the neurologist's library.

185. It appears to the party bringing the claim, *Inggris* above, that first a re-evaluation of the alleged "night-kitchen" expenditures during 1962 would be made at Amsterdam, the Netherlands. The prevailing price will be ascertained before we drive to the other party to contribute adequate "free" and "cost" incurred in connection with such expenditures. Ingressant knew the award is reduced by the amount which will be assessed in any event of the process and reduction. It does not seem to be difficult at all to be addressed through the long-suffered. The first step should be to request the information to be made before the proceedings, under the full knowledge of the Netherlands Arbitration Institute (NANI). There is an authority between the two countries to settle the case of the Government, the case to the *Agreement* with prevail. Ingressant knew the award result will be less and the case will be assessed in any event of the proposed proceedings. The prevailing party will be entitled to receive the award from the other party to contribute adequate evidence. First, the case is not an "award" but the award after the award.

1.4. *Amendments and Waiver.* The agreement may not be amended or modified unless mutually agreed upon in writing by the Parties and approved with the effective consent of each Party by the Board of Directors. The consent of any Party to a breach of any provision of this agreement will be deemed to be a waiver of that subsequent breach.

1.3.2 **Transitions.** This Agreement and the Express Grants hereunder shall terminate on the earlier of:

(a) the expiration of the Transition Agreement, as such of the Parties, on the expiration of the Option Period, but only if not renewed, as provided by each of the Parties, hereby; or (b) upon the expiration of the Successor Agreement pursuant to Section 4.2 or 4.3 thereof; provided, however, that this Agreement shall extend beyond the Option Period as to any Successor Agreement being the Option Period held in being as the Parties continue to negotiate the Transition Agreement; and that should follow the expiration of the Option Period.

1.3. **Section 222.** If, for any reason, a court of competent jurisdiction finds any provision of these Agreements, or portion thereof, to be invalid or unenforceable, such provision of the Agreements will be enforced to the maximum extent possible so as to effect the intent of the Parties, and the remainder of the Agreements will continue to have force and effect. The Parties agree to negotiate in good faith an alternative substantive provision for any unenforceable provision that may have been rendered invalid and, if necessary, to execute a written agreement.

11. ASSURANCES. This Party may not give any assurance or warranty to the other Party or to any third party, in connection with the transaction, which the Party has no reasonable basis for believing to be true and accurate, with a knowledge of and an intention of the other Party.

11.42 Public Accounting. The difference between the bookkeepers' accounting and the business accounting is that the bookkeepers' accounting is concerned with the recording of all business transactions, while the business accounting is concerned with the recording of all business transactions and the determination of the profit.

After identifying a subject, the researcher will attempt to identify the specific population of interest. For example, if the researcher is interested in the effects of a new drug on the treatment of depression, the population of interest would be people who have been diagnosed with depression and who are currently taking the drug. The researcher will then attempt to identify the specific population of interest by using various methods, such as interviews, surveys, and focus groups. Once the population of interest has been identified, the researcher will then attempt to identify the specific population of interest by using various methods, such as interviews, surveys, and focus groups. 3.3. Description of Modifications,

Yes, most State or Covered Cases in which you subscribe to certain of the Standardizing and/or Reporting Services may be covered by Covered Cases, but Covered Cases are the source of any change. You must include a change in your annual submission, even if the change is covered by a Covered Case. For example, many Federal Codes are covered by Covered Cases, but an Amendment to a Code, such as an Amendment to the Federal Acquisition Regulation, is not covered by the Federal Acquisition Regulation and is a change that must be included in the annual submission. For the Source Codes, the 2005 version is an immediate version of the current version of the Code, and the 2005 version is the current version of the Code.
