Whereas, We, the undersigned, herein referred to as the "PATENTEE(S)/APPLICANT(S)", have contributed to the conception or development of certain new and useful improvements, herein referred to as the "INVENTION", in:

We warrant and covenant that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been or will be made to others by the undersigned, and that the full right to convey the same as herein expressed is possessed by the undersigned.

We warrant and covenant at the time of signing this assignment the undersigned neither knows nor has reason to know of any outstanding right, title, or interest in the Invention inconsistent with a full assignment of rights to the ASSIGNEE other than the right, title, or interest which may exist as a result of coinventorship by another person.
