ASSIGNMENT

Whereas, **Design Central Inc.**, having a mailing address of 6464 Presidential Gateway, Columbus, OH 43231, owns rights in and to certain new and useful and new and ornamental improvements in a "liquid cylinder", for which U.S. Provisional Patent Application Number 61/179,886 titled "Cryogenic Liquid Cylinder", U.S. Design Patent Application Number 29/449,416 titled "Fluid Cylinder Handling Ring", U.S. Design Patent Application Number 29/449,418 titled "Fluid Cylinder Lift Lug", and U.S. Design Patent Application Number 29/449,420 titled "Fluid Cylinder Valve Assembly" were filed (hereinafter collectively the "patent applications");

And whereas, **Worthington Cylinders Corporation**, having a mailing address of 200 W. Old Wilson Bridge Road, Worthington, OH 43085, is desirous of acquiring the entire right, title and interest in, to and under said invention and said patent applications, any nonprovisional applications, any continuing applications, continuations-in-part, divisional applications, refiled or reissue applications made in the United States of America and all other Nations which may result from said invention, said patent applications and information disclosed in said patent applications, and any and all patents which may be issued therefrom;

Now, therefore, in consideration of good and valuable consideration, the receipt of which is hereby acknowledged, we, **Design Central Inc.** does hereby sell, assign and transfer to **Worthington Cylinders Corporation**, the entire right, title and interest, in and to the inventions of new and original designs in and to the "liquid cylinder", said patent applications, the inventions therein described, and all rights appurtenant thereto and in all our patent applications related thereto, including each of the following: the right to apply for any utility or design patents for said invention in the United States of America and in any and all other nations, any and all other applications for patents on said invention including all nonprovisional, divisional, renewal, substitute and continuation applications based in whole or in part upon said inventions or upon said patent applications or related thereto; any and all patents that may issue thereon in the United States and other Nations and any and all reissues, extensions, renewals, divisions, or continuations of patents granted for said inventions or upon said applications, to the full end of the term or terms for which said patent may be issued; and every priority or other right accorded by every international convention, treaty or agreement that is or may be predicated upon or arise from said invention, application and other applications or patent therefor, all to be held and enjoyed by **Worthington Cylinders Corporation**, and its successors and assigns, all the same as **Design Central Inc.** would have held and enjoyed had this Assignment not been made.

Design Central Inc. hereby authorizes and grants the right to **Worthington Cylinders Corporation**, and its successors and assigns, to file and prosecute patent applications in any or all countries on all or any part of said inventions in our names or in the name of **Worthington Cylinders Corporation**, and its successors and assigns, or otherwise, as

Worthington Cylinders Corporation, and its successors and assigns, may deem advisable under any international convention, treaty, or agreement or otherwise.

Design Central Inc. hereby requests and authorizes the Commissioner of Patents and Trademarks of the United States and the empowered officials of all other countries to grant, issue and transfer any patent for said invention to **Worthington Cylinders Corporation** as assignee of the entire right, title and interests therein, in accordance with this instrument of assignment.

Design Central Inc. hereby represents and warrants that there are no outstanding rights or interest inconsistent with the rights and interests granted herein; Design Central Inc. covenants that it will not execute, grant, or transfer any rights or interests inconsistent herewith, Design Central Inc. binds its self to execute and deliver to **Worthington Cylinders Corporation**, and its successors and assigns, any further documents or instruments and to perform any and all acts that may be deemed necessary to enable it, and its successors and assigns, to file applications for patents for said inventions in any country in which it may elect to file such application, and to vest in **Worthington Cylinders Corporation**, and its successors and assigns, the title herein conveyed and intended to so be, and to enable such title to be recorded in the United States and each Nation in which each such application may be filed so that any patent issued thereon shall be issued to **Worthington Cylinders Corporation**, and its successors and assigns; and Design Central Inc. further covenants and agrees that it will, upon request, communicate to **Worthington Cylinders Corporation**, and its successors and assigns, any facts relating to said inventions and the histories thereof, known to it and that it testify as to the same in any proceeding, interference or litigation when requested to do so by **Worthington Cylinders Corporation**, and its successors and assigns.

Design Central Inc.
