ASSIGNMENT OF PATENTS

This PATENT ASSIGNMENT (this "**Assignment**"), dated as of November __, 2010, is made by and among Noble Liquidating Trust, a Michigan entity ("NOBLE"), and ACCRA Teknik AB, a Swedish company ("ACCRA").

WITNESSETH:

WHEREAS, pursuant to the Patent Sale Agreement dated effective as of November __, 2010, by and between the NOBLE and the ACCRA (the "**Patent Sale Agreement**"), the NOBLE has agreed to transfer to the ACCRA all of the NOBLE's right, title and interest in and to the Patents and Patent Applications in Appendix A; and

WHEREAS, pursuant to the Patent Sale Agreement, the NOBLE and the ACCRA have agreed to execute this Assignment.

NOW, THEREFORE, for good and valuable consideration, including the above referenced Patent Sale Agreement, the adequacy, legal sufficiency and receipt of which are hereby acknowledged, the parties hereto agree as follows:

1. NOBLE hereby assigns, transfers and conveys to ACCRA, and ACCRA hereby accepts and assumes, all right, title and interest (a) in and to the patents and patent applications listed in Appendix A, the inventions disclosed therein, and all active United States and foreign patents and patent applications claiming priority to or otherwise issued with respect to the patent applications and patents identified in Appendix A, including, but not limited to divisionals, continuations, continuations-in-part, reexaminations, and reissues of such applications and patents; (b) in and to all rights to sue for and damages resulting from past, present and future infringement of all United States and foreign patents granted or to be granted on any and all of said patents and patent applications, and inventions disclosed therein, and related patents and patent applications including extensions, reissues, and reexamination certificates thereof; (c) said inventions, applications, and patents to be held and enjoyed by ACCRA, for ACCRA's own use and benefit, and for ACCRA's legal representatives and assigns to the full end of the term or terms for which said patents may be granted, as fully and entirely as the same would have been held by NOBLE had this assignment and sale not been made; and for the aforesaid consideration NOBLE hereby covenants, agrees and undertakes to execute, whenever reasonably requested by ACCRA, and at the expense of ACCRA, all patent applications, assignments, lawful oaths and any other papers that are necessary for securing to ACCRA or for maintaining for ACCRA all the patents and patent applications hereby assigned or agreed to be assigned in the United States and its possessions and territories and all foreign countries.

2. This instrument is executed and delivered pursuant to the terms and conditions of the Patent Sale Agreement, including but not limited to, the representations and warranties made by NOBLE and ACCRA therein. In the event of any ambiguity or inconsistency between the terms of the Patent Sale Agreement and the terms hereof, the terms of the Patent Sale Agreement shall prevail. EXCEPT FOR THE WARRANTIES EXPLICITLY PROVIDED IN THE

PATENT SALE AGREEMENT, NOBLE MAKES NO OTHER REPRESENTATIONS OR WARRANTIES REGARDING THE ASSETS ASSIGNED TO ACCRA HEREIN. THE ASSETS ARE BEING SOLD TO ACCRA AS-IS AND WITH ALL FAULTS, AND NOBLE DISCLAIMS ANY AND ALL OTHER REPRESENTATIONS AND WARRANTIES, EXPRESS AND IMPLIED, WITH RESPECT TO THE ASSETS. NOBLE MAKES NO REPRESENTATION OR WARRANTY THAT APPENDIX A IS ACCURATE OR COMPLETE OR THAT ANY OF THE ASSETS LISTED IN APPENDIX A ARE OR WERE AT ANY TIME ENFORCEABLE, VALID, OR SUBSISTING.

3. This Assignment and each of its provisions shall be binding on and shall inure to the benefit of the respective successors and assigns of NOBLE and ACCRA. No provision of this Assignment is intended to benefit, nor shall any such provision be enforceable by, any person or entity other than NOBLE and ACCRA and their respective successors and assigns.

4. This Agreement shall be governed by, and construed in accordance with, the laws of the State of Michigan without giving effect to conflicts of law principles thereof.
