ATTORNEY DOCKET: 2547/101

SERIAL NO: 08/999,297

FILED: December 29, 1997

Assignor is the sole inventor (if only one inventor is listed above) or a joint inventor (if more than one inventor is listed above) of the above invention (the "Invention") described in a United States patent application (the "Application") bearing the above attorney docket number and having as a title the above name for the Invention. The Application has a Patent and Trademark Office filing date and serial number as indicated above, or if no filing date and serial number are shown, has a Declaration executed by Assignor contemporaneously with this Assignment.

For valuable consideration, receipt of which is acknowledged, each Assignor hereby assigns to Assignee (which term shall include Assignee's successors and assigns), all of Assignor's right, title and interest in the Invention, all improvements therein, the Application and all priority rights arising therefrom, and any patents, and any reissues and extensions thereof, which issue in any country upon any patent applications which correspond with any of the following: the Application, any divisional, continuation-in-whole, or substitute United States application which is based on the Application; or any continuation-in-part United States

application (including divisions, continuations-in-whole or -in-part, and substitutions thereof or therefor) based in-part on any of the above described applications.

Each Assignor further agrees that such Assignor and Assignor's heirs and legal representatives will, without further consideration, cooperate with Assignee in the prosecution of all of the above applications, execute, verify, acknowledge and deliver all such further papers, including applications for patents and for reissues and extensions therefor, and instruments of assignment and transfer thereof, and will communicate any facts known to Assignor relating to the Invention, to obtain or maintain or enforce patents for the Invention and improvements therein in any and all countries and to vest title thereto in Assignee. Each Assignor further agrees that such Assignor will, without further compensation to Assignor during the term of such Assignor's employment by Assignee and thereafter for reasonable compensation as determined by Assignee, perform such other acts as may be reasonably required when requested by Assignee, including attending depositions, preparing and executing declarations and affidavits and testifying as a witness, to obtain or maintain or enforce patents for the Invention and improvements therein in any and all countries and to vest title thereto in Assignee.

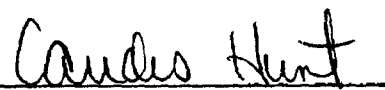

IN WITNESS WHEREOF, each Assignor hereby executes this instrument on the date set forth below.

PATENT RIGHTS ASSIGNMENT

THIS PATENT RIGHTS ASSIGNMENT (this "*Assignment*") is made by and between DE TECHNOLOGIES, INC., a Delaware corporation ("*Seller*") and FORREST, LLC, a Delaware limited liability company (the "*Purchaser*") as of February 1, 2013 (the "*Effective Date*").

WHEREAS, Seller, the owner of certain intellectual property, entered into an Asset Purchase Agreement with Purchaser, dated as of January 25, 2013 (the "*APA*");

WHEREAS, pursuant to the APA, Seller is obligated to assign all rights in and to the domestic and foreign patents (including certificates of invention and other patent equivalents) and patent applications set forth on Exhibit A attached hereto and incorporated herein by reference (collectively, the "*Patent Rights*") and the invention(s) described and/or claimed in the Patent Rights (the "*Inventions*") to Purchaser; and

NOW, THEREFORE, in connection with, and for the consideration set forth in, the APA, Seller and Purchaser agree to the following assignment of rights:

Seller hereby sells, assigns, conveys and transfers unto Purchaser and its successors, assigns, and legal representatives, Seller's entire right, title and interest throughout the world in and to the Inventions, together with Seller's entire right, title and interest throughout the world in and to the Patent Rights and patents or patent applications claiming priority under United States law or international convention to the Patent Rights, including, without limitation, all divisionals, continuations, continuations-in-part in existence as of the date of the assignment, reissues, reexaminations, extensions, substitutions, revivals and renewals of any patent or patent application relating to any of the foregoing; and patents issuing or resulting from any of the foregoing to be held and enjoyed by the Purchaser for its own use and that of its successors, assigns and legal representatives, to the full end of the term for which said patents may be granted as fully and entirely as the same would have been held by Seller had this assignment and sale not been made; and Seller hereby conveys all of their rights arising under or pursuant to any and all United States laws and international agreements, treaties or laws relating to the protection of industrial property by filing any such applications for patent, including but not limited to all claims for damages or payments by reason of infringement of the Patent Rights accruing prior to the assignment, and all rights to sue and recover damages or obtain relief for past, present and future infringements and collect same for the Purchaser's sole use and enjoyment. Seller hereby acknowledges that the assignment, being of Seller's entire right, title and interest in and to the Inventions and the Patent Rights carries with it the right in the Purchaser to apply for and obtain from competent authorities in all countries of the world any and all patents by attorneys and agents of the Purchaser's selection and the right to procure the grant of all patents to the Purchaser in its own name.

Seller hereby authorizes the Director of the United States Patent & Trademark Office, and the empowered officials of all other governments whose duty it is to record patents, applications and title thereto, to record the Patent Rights and title thereto as the property of the Purchaser, its successors, assigns, or legal representatives in accordance with the terms of this instrument.

Seller hereby further authorizes and requests the Director of the United States Patent & Trademark Office, and the empowered officials of all other governments, to issue such Patent Rights or patents as shall be granted upon the Patent Rights, or applications based thereon, to the Purchaser, its successors, assigns, or legal representatives.

Seller agrees, without further consideration, to execute and deliver promptly to Purchaser such

further consents, waivers, assignments, endorsements, and other documents and instruments, and to take all such further actions, as Purchaser may from time to time reasonably request with respect to the assignment, transfer, and delivery to Purchaser of the Patent Rights and Inventions and the consummation in full of the transactions contemplated by this Agreement.

Purchaser and Seller agree that to the extent there is any conflict between the terms of this *Assignment* and the terms of the *APA* the terms of the *APA* shall control.

Purchaser and Seller also agree that multiple copies of this Assignment may be executed, each of which shall be deemed an original, and each of which shall be valid and binding upon Purchaser and Seller.

[Signatures appear on following page.]

IN WITNESS WHEREOF, each party hereto has executed this Assignment effective as of the Effective Date first written above.
