ASSIGNMENT

WHEREAS, I, Anthony Iasso, residing at 5839 Seven Pines Court, Haymarket, Virginia 20169, (hereinafter "ASSIGNOR") have invented certain new and useful improvements in and to the subject matter of:

SYSTEMS AND METHODS FOR SECURE WATCHLISTING

described in Patent Cooperation Treaty (PCT) Application No. PCT/US08/54594 (hereinafter "PCT Application");

AND, WHEREAS, Oberon Associates Inc., a corporation organized under the laws of the Commonwealth of Virginia, having a place of business located at 9700 Capital Court, Suite 301, Manassas, VA, 20110 (hereinafter "ASSIGNEE"), is desirous of acquiring certain rights to the improvements and under the application;

NOW, THEREFORE, in consideration of the sum of One Dollar (\$1.00) or the equivalent thereof, receipt of which is hereby acknowledged, and other good and valuable consideration described below, ASSIGNOR does hereby sell, assign and transfer unto said ASSIGNEE, its successors, assigns and legal representatives, a 50% undivided right, title and interest in and throughout the United States of America (including its territories and dependencies) and all countries foreign thereto in and to said improvements, the PCT Application, any other United States applications, including provisional, non-provisional, divisional, renewal, substitute, continuation, reexamination and reissue applications, based in whole or in part on the PCT Application or in whole or in part on said improvements, any foreign applications, including international and regional applications, including the right to file applications and obtain patents under the terms of the International Convention of Paris (1883) as amended, and of the European Patent Convention, based in whole or in part on the PCT Application or in whole or in part on said improvements, and in and to any and all letters patent, including extensions thereof, of any country which have been or may be granted on any of the aforesaid applications or on said improvements or any parts thereof (hereinafter "PATENT RIGHTS");

ASSIGNOR and ASSIGNEE will have an equal, undivided interest in the PATENT RIGHTS. The parties agree to cooperate in obtaining and maintaining the PATENT RIGHTS.

As partial consideration for the assignment, ASSIGNEE agrees to bear 100% of the expenses of obtaining and maintaining the PATENT RIGHTS. In the event ASSIGNEE abandons the PATENT RIGHTS by failing to bear the expenses of obtaining and maintaining the PATENT RIGHTS, ASSIGNOR may recover an entirety of right, title and interest assigned herein by undertaking the expense of obtaining and maintaining the PATENT RIGHTS, thereby revoking ASSIGNEE's rights.

In the event of infringement by a third party of the PATENT RIGHTS, ASSIGNOR or ASSIGNEE may assert any right associated with the PATENT RIGHTS and initiate an action for infringement thereof, provided, however, that the other party is given an opportunity in advance to join in the assertion and action. ASSIGNOR and ASSIGNEE agree to cooperate and assist the other party in any infringement action brought by the other party in accordance with this provision, including joining the action to the extent necessary to permit the other party to maintain the suit.

In an action initiated by ASSIGNEE, ASSIGNEE agrees to bear any reasonable expense incurred by ASSIGNOR for joining and participating in the action. Once an action is initiated by ASSIGNEE, ASSIGNEE must continue to bear all reasonable expense until completion of the action, even if ASSIGNEE abandons the action.

In any action joined by both ASSIGNOR and ASSIGNEE, ASSIGNOR and ASSIGNEE agree to share equally any recoveries gained from the action, except ASSIGNEE shall receive 100% of any recoveries of expenses incurred by ASSIGNEE in the initiation and maintenance of the action. In any action joined by both ASSIGNOR and ASSIGNEE, ASSIGNOR or ASSIGNEE must acquire consent of the other party before agreeing to settle the action.

ASSIGNOR and ASSIGNEE will be free to grant nonexclusive licenses under its interest in the PATENT RIGHTS provided the other party is given (a) notice of the identity of each such licensee, and (b) fifty percent (50%) of all revenue received pursuant to each such license. The preceding sentence notwithstanding, ASSIGNOR or ASSIGNEE may not grant a license under the PATENT RIGHTS if such license would deprive the other of prospective remedies for infringement in an action filed prior to the grant of a license.

ASSIGNOR and ASSIGNEE hereby authorize and request our agents, MH2 Technology Law Group, whose address is 1951 Kidwell Drive, Suite 550, Tysons Corner, VA 22182, to insert hereon any identification necessary or desirable for recordation of this document, including the filing date and application number of said application when known.

ASSIGNOR and ASSIGNEE hereby agree for ourselves and our heirs, executors, administrators, successors, assigns and legal representatives to execute without further consideration any further documents and instruments which may be necessary, lawful and proper in the prosecution of said above-referenced application or in the preparation or prosecution of any continuing, substitute, divisional, renewal, reexamination or reissue application or in any amendments, extensions or interference proceedings, or other applications for patents of any region or country, that may be necessary to secure to ASSIGNOR and ASSIGNEE its interest and title in and to said improvements or any parts thereof, and in and to said several patents or any of them;

ASSIGNOR hereby covenant for ourselves and our legal representatives, and agree with said ASSIGNEE, its successors and assigns, that we have granted no right or license to make, use, sell or offer to sell said improvements, to anyone except said ASSIGNEE, that prior to the execution of this deed, our right, title and interest in said improvements had not been otherwise encumbered, except for any rights retained by the United States Government to any improvements developed under United States Governmental contracts;

ASSIGNOR and ASSIGNEE hereby agree that failure by either party to require performance of any provision of this ASSIGNMENT shall not waive that party's rights to enforce such provision, and that waiver of any provision in this ASSIGNMENT shall only be by notification in writing by the waiving party to the other party;

ASSIGNOR and ASSIGNEE hereby agree that if any provision of this ASSIGNMENT is held invalid or unenforceable, such determination shall not invalidate any other provision of this ASSIGNMENT;

ASSIGNOR and ASSIGNEE do hereby authorize and request the Director of the United States Patent and Trademark Office to issue any and all letters patent which may be granted upon said United States applications, or upon said improvements or any parts thereof when granted, to ASSIGNOR and ASSIGNEE.

IN WITNESS WHEREOF, we have hereunto set our hands and seals.
