ASSIGNMENT OF INTELLECTUAL PROPERTY

ASSIGNMENT OF INTELLECTUAL PROPERTY (this "Assignment"), dated as of March 15, 2005, by and between LOCKSTREAM CORPORATION, a Washington corporation ("Assignor"), and LS MOBILE CORPORATION, a Delaware corporation ("Assignee").

WHEREAS, pursuant to that certain Asset Purchase Agreement, dated February 15, 2005, by and between Assignor and Assignee (the "Asset Purchase Agreement"; unless otherwise defined herein, capitalized terms shall be used herein as defined in the Asset Purchase Agreement), Assignee, among other things, acquired all right, title and interest of Assignor in and to the Assets, including certain intellectual property;

WHEREAS, as a condition to Closing, Assignor and Assignee agreed to enter into this Assignment pursuant to which Assignor shall assign to Assignee all of its right, title and interest in the Transferred Intellectual Property (as defined below).

NOW THEREFORE, in consideration of the premises, the mutual agreements and covenants set forth in the Asset Purchase Agreement and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor and Assignee agree as follows:

1.   Assignment. Assignor hereby assigns, transfers and conveys to Assignee good and marketable title to all of Assignor's right, title, and interest in and to the Transferred Intellectual Property, including without limitation the foregoing that are listed on Schedule A attached hereto, free and clear of all Encumbrances.

2.   Recordation of Patents, Trademarks and Copyrights. If Assignee elects to record this Assignment with the United States Patent & Trademark Office, United States Copyright Office or applicable state or non-United States governmental or international authorities or registries, Assignee shall bear all costs and fees associated with such recording. Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States, Register of Copyrights of the United States and any official of any state or non-United States country whose duty it is to issue intellectual property registrations, to issue all registrations from any applications for registration included in the Transferred Intellectual Property to Assignee.

3.   Further Actions. Assignor hereby appoints Assignee as its agent to act in Assignor's name and on Assignor's behalf to take any action necessary to effect the transfer of any of the Transferred Intellectual Property to Assignee, or prosecute or otherwise enforce any claims, rights or benefits relating to the Transferred Intellectual Property.

4. <u>Governing Law</u>. This Agreement shall be governed by, and construed in accordance with, the laws of the State of Washington applicable to contracts executed in and to be performed entirely within that State..

5. <u>Counterparts</u>. This Assignment may be executed and delivered (including by facsimile transmission) in one or more counterparts, and by Assignor and Assignee in separate counterparts, each of which when executed shall be deemed to be an original but all of which taken together shall constitute one and the same agreement.
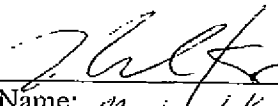

6. <u>Severability</u>. If any term or other provision of this Assignment is invalid, illegal or incapable of being enforced by any Law or public policy, all other terms and provisions of this Assignment shall nevertheless remain in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in any manner materially adverse to either Assignor or Assignee. Upon such determination that any term or other provision is invalid, illegal or incapable of being enforced, Assignor and Assignee hereto shall negotiate in good faith to modify this Assignment so as to effect the original intent of Assignor and Assignee as closely as possible in an acceptable manner in order that the transactions contemplated by this Assignment are consummated as originally contemplated to the greatest extent possible.
