ASSIGNMENT

Whereas, BENEDOR CORPORATION (hereinafter "ASSIGNOR") owns all right title and interest to certain inventions, improvements, and discoveries (herein referred to as the "Invention") entitled:

Title of the Invention: **METHOD AND APPARATUS TO PROVIDE SECURE PURCHASE  
TRANSACTIONS OVER A COMPUTER NETWORK**

and further identified by the U.S. Patent Application Number provided below:

U.S. Patent Serial No.: 09/726,304      Filed: 12-01-2000      U.S. Patent No.: 6,839,692

Whereas, BENEDOR LLC., a corporation of Nevada having a place of business at Henderson, NV (herein referred to as "ASSIGNEE"), desires to acquire, and ASSIGNOR desires to grant to ASSIGNEE, the entire worldwide right, title, and interest in and to the Invention, and in and to any and all patent applications and patents directed thereto;

Now, therefore, for good and valuable consideration, the receipt and sufficiency thereof being hereby acknowledged, the ASSIGNOR hereby sells, assigns, and otherwise transfers to ASSIGNEE, its successors, legal representatives, and assigns, the entire worldwide right, title, and interest in and to the Invention, the above-identified United States Patent, and any and all other patent applications and patents for the Invention which may be applied for or granted therefore in the United States and in all foreign countries and jurisdictions, including all divisions, continuations, reissues, reexaminations, renewals, extensions, counterparts, substitutes, and extensions thereof, and all rights of priority resulting from the filing of such applications and granting of such patents. In addition, the ASSIGNOR hereby authorizes and requests the Director of the United States Patent and Trademark Office to issue any United States Patent, and foreign patent authorities to issue any foreign patent, granted for the Invention, to ASSIGNEE, its successors, legal representatives, and assigns, the entire worldwide right, title, and interest in and to the same to be held and enjoyed by ASSIGNEE, its successors, legal representatives, and assigns to the full end of the terms for which any and all such patents may be granted, as fully and entirely as would have been held and enjoyed by the undersigned had this Assignment not been made; and the undersigned ASSIGNOR agrees to execute any and all documents and instruments and perform all lawful acts reasonably related to recording this Assignment or perfecting title to the Invention and all related patents and applications, in ASSIGNEE, its successors, legal representatives, and assigns, whenever requested by ASSIGNEE, its successors, legal representatives, or assigns.

ASSIGNOR acknowledges prior and ongoing obligations to sell, assign, and transfer the rights under this Assignment to ASSIGNEE and is unaware of any reason why they may not have the full and unencumbered right to sell, assign, and transfer the rights hereby sold, assigned, and transferred, and has not executed, and will not execute, any document or instrument in conflict herewith. This Assignment is governed by the substantive laws of the State of Nevada, and any disputes will be resolved in a Nevada state court or federal court sited in Nevada.
