PATENT ASSIGNMENT

This PATENT ASSIGNMENT (this "Assignment"), is made and entered into as of July 31, 2013, by and between Serious Energy, Inc., a Delaware corporation (" Assignor"), and Pabco Building Products, LLC a California limited liability company (" Assignee").

RECITALS

WHEREAS, Assignor and Assignee are parties to an Asset Purchase Agreement dated as of July 16, 2013 (the "Purchase Agreement"); and

WHEREAS, pursuant to the Purchase Agreement, Assignor has agreed to assign and transfer to Assignee, among other things, the entire right, title and interest in, to and under the patents and patent applications listed in Schedule A hereto, including without limitation all renewals, reissues, divisions, substitutions, continuations, continuations-in-part, extensions and reexaminations and all foreign counterparts thereof, and all patents obtained thereon (collectively, the "Patents");

ASSIGNMENT

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, Assignor hereby sells, conveys, assigns, transfers and delivers to Assignee, its successors, legal representatives and assigns, all right, title and interest in, to and under the Patents; and all applications for patents, utility models, and designs which may hereafter be filed for any invention or improvement within the Patents in any country or countries, together with the right to file such applications and the right to claim for the same the priority rights derived from any patent within the Patents under the patent laws of the United States, the International Convention for the Protection of Intellectual Property, or any other international agreement or the domestic laws of the country in which any such application is filed, as may be applicable, and all renewals, reissues, divisions, substitutions, continuations, continuations-in-part, extensions and reexaminations and all foreign counterparts thereof; the same to be held and enjoyed as fully and completely as the same would have been held and enjoyed by the Assignor had this Assignment not been made.

Assignor hereby requests the appropriate governmental authority to issue any patent within the Patents to Assignee as Assignee of the Patents as the assignee of the entire interest therein. Upon Assignee's written request, Assignor hereby agrees to execute, at Assignee's expense, such additional form(s) of assignment for the foregoing patents and patent applications as may be reasonably required by the appropriate governmental authority for recordation of this Assignment.

The interpretation and construction of this Assignment shall be governed by the laws of the State of California, excluding any conflicts or choice of law rule or principle that might otherwise refer construction or interpretation of this Assignment to the substantive law of another jurisdiction.

This Assignment may be executed by the Assignor and Assignee in separate and several counterparts, each of which shall be an original, but which together shall constitute one and the same instrument. An executed signature page of this Agreement delivered by facsimile or PDF transmission shall be as effective as an original executed signature page.

[Signature Page Follows]

IN WITNESS WHEREOF, Assignor has caused this Patent Assignment to be executed by a duly authorized representative thereof.

SERIOUS ENERGY, INC.
