## ASSIGNMENT

**THIS ASSIGNMENT**, made this 4 day of September 2013, by Flexi Bath ApS, a corporation in the country of Denmark, with a principal place of business at Frodesvej 27, DK-8230, Abyhøj, Denmark, (hereinafter referred to as "Assignors");

**WHEREAS**, Assignors have made new and useful improvements in a design patent application titled "TUB", filed in the United States Patent and Trademark Office on December 12, 2008 and assigned Serial Number 29/313,160; and issued as Design Patent No. D600,330 on September 15, 2009; and

a design patent application titled "ACCESSORY FOR BATH TUB", filed in the United States Patent and Trademark Office on March 2, 2012 and assigned Serial Number 29/414,695; and issued as Design Patent No. D683,438 on May 28, 2013 and

**WHEREAS**, Stokke AS, a company with a principal place of business at Parkgata 6, 6003 Ålesund, Norway, (hereinafter referred to as "Assignee"), is desirous of acquiring the entire right, title and interest as hereinafter recited;

**WHEREAS**, Assignors hereby assign desires to assign a 100% undivided interest in said design patent applications to the above-identified Assignee(s), and wherein said Assignee(s) is desirous of acquiring the entire right, title and interest in the same; for value received, the receipt and sufficiency whereof is hereby acknowledged;

**WHEREAS**, Assignors hereby assign, sell and transfer a 100% undivided interest in the entirety of the bundle of rights, title, and interest in and to said design patent applications, unto said Assignee(s), together with all claims for damages and profits by reason of any past infringement of said letters patent and the right to sue therefor, and together with the right to file said patent application or any division, continuation, or continuation-in-part thereof in any foreign jurisdiction under the Paris Convention or the Patent Cooperation Treaty, such interests, claims, and rights, to be held and enjoyed by the Assignee(s) for its own use and for its successors and assigns, to the full end of the term for which a patent issuing from said design patent applications may be granted, and any reissues, renewals, or extensions thereof as may be granted, as fully and entirely as the same would

have been held by Assignor had this Assignment and sale not been made; and Assignors further agree to execute all necessary and lawful future documents, including assignments in favor of Assignee(s), or its designees as Assignee or its Assignees may from time-to-time present to me in order to perfect title in said patent application; and Assignor further covenant that no assignment, sale, agreement, or encumbrance has been or will be made or entered into which would conflict with this assignment and sale; and Assignors further covenant that Assignee(s) will, upon its request, be provided promptly with all pertinent facts and documents relating to said patent application as may be known and accessible to me and Assignors will testify to the same in any proceeding or litigation related thereto and will promptly execute and deliver to Assignee(s) or its legal representatives any and all papers, instruments, declarations, or affidavits required to apply for, obtain, maintain, and enforce said patent application or patent issuing therefrom which may be necessary or desirable to carry out the purposes hereof; this Assignment may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Upon being duly cautioned, Assignor hereby declares that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true and further that false statements and the like so made are punishable by fine, imprisonment or both under Section 1001 of Title 18 of the United States Code, and that such willful, false statements may jeopardize the validity of the patent application and any patent issuing therefrom.
