## PATENT ASSIGNMENT AGREEMENT

This Patent Assignment Agreement is effective as of October 11, 2013, by and between ENDOSCOPIC TECHNOLOGIES, INC., a Delaware corporation d/b/a/ Estech (the "Assignor") having an address at 2603 Camino Ramon, Suite 100, San Ramon, California 94583, and TERUMO CARDIOVASCULAR SYSTEMS CORPORATION, a Delaware corporation (the "Assignee") having an address at 6200 Jackson Road, Ann Arbor, Michigan 48103.

WHEREAS, Assignor is willing to assign and transfer to the Assignee all of its right, title, and interest in and to the patents and applications identified on Schedule A (the "Patents") pursuant to the terms of that certain Asset Purchase Agreement dated October 11, 2013, by and between Assignor and Assignee (the "Purchase Agreement"); and

WHEREAS, the Assignee desires to acquire all of the Assignor's right, title, and interest in and to the Patents.

NOW, THEREFORE, in consideration of the promises and covenants set forth in the Purchase Agreement and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto agree as follows:

1. Conveyance. Assignor by these presents does hereby sell, assign, and transfer, to the Assignee, its successors and assigns, all of its right, title, and interest in and to the Patents and priority rights thereof, the same to be held and enjoyed by the Assignee for its own use, and for the use of its successors, assigns, or other legal representatives to the end of the term or terms for which such Patents are or may be granted as fully and entirely as the same would have been held and enjoyed by the Assignor if this Assignment had not been made, including any division, continuation, continuation-in-part and/or reissue of the Patents.
2. Recordation. The Assignor hereby authorizes and requests the respective patent offices to issue any and all Patents referred to above to Assignee. The Assignor agrees, without further consideration and at Assignee's expense (or its successors and assigns), to execute all additional instruments and to do all things necessary for carrying out the purpose of this Assignment.
3. Counterparts. This Assignment may be executed in two or more consecutive counterparts (including without limitation by facsimile), each of which shall be an original, with the same effect as if the signatures thereto and hereto were upon the same instrument, and shall become effective when one or more counterparts have been signed by each party and delivered (by facsimile or otherwise) to the other party.
4. Purchase Agreement Controls. This Assignment is provided pursuant to the Purchase Agreement, to which reference is made for a further statement of the rights and obligations of the Assignors and Assignee with respect to the Patents. Nothing contained in this Assignment shall be deemed to modify, supersede, enlarge or affect the rights of any person under the Purchase Agreement. If any provision of this Assignment is inconsistent or conflicts with the Purchase Agreement, the Purchase Agreement shall control.

5. Governing Law. This Assignment shall be governed by and construed in accordance with the laws of the State of Delaware without regard to conflicts-of-law principles that would require the application of any other law.

*[Remainder of page intentionally blank]*

The Assignor agrees, without further consideration and at Assignee's expense (or its successors and assigns), to execute all additional instruments and to do all things necessary for carrying out the purpose of this Assignment.
