ASSIGNMENT

WHEREAS, Steve P. Monacos and Anand V. Panangadan (hereinafter "Assignor(s)"), made certain new and useful inventions and improvements which are entitled WIRELESS SENSOR NODE FOR AUTONOMOUS MONITORING AND ALERTS IN REMOTE ENVIRONMENTS and which are disclosed in the following application(s):

U.S. Application Serial No. 14/068,303, filed on October 31, 2013 AND WHEREAS, California Institute of Technology, a corporation organized and existing under and by virtue of the laws of the State of California, and having an office and place of business at 1200 E. California Blvd., Pasadena, California 91125 (hereinafter "Assignee") is desirous of acquiring the entire right, title and interest in and to said inventions, improvements and application(s) and in and to the Letters Patent to be obtained therefor;

NOW THEREFORE, to all whom it may concern, be it known that for and in consideration of the sum of One Dollar and other good and valuable considerations, the receipt and sufficiency whereof is hereby acknowledged, Assignor(s) have sold, assigned, and transferred, and by these presents do sell, assign and transfer unto said Assignee, its successors or assigns, the entire right, title and interest for all countries in and to all inventions and improvements disclosed in the aforesaid application(s), and in and to the application(s), all divisions, continuations, or renewals thereof, all Letters Patent which may be granted therefrom, and all reissues or extensions of such patents, and in and to any and all application(s) which have been or shall be filed in any foreign countries for Letters Patent on the inventions and improvements, including an assignment of all rights under the provisions of the International Convention, and all Letters Patent of foreign countries which may be granted therefrom; and do hereby authorize and request the Commissioner for Patents to issue any and all United States Letters Patent for the aforesaid inventions and improvements to the Assignee as the assignee of the entire right, title and interest in and to the same, for the use of the Assignee, its successors and assigns;

AND, for the consideration aforesaid, Assignor(s) do hereby agree that they and their executors and legal representatives will make, execute and deliver any and all other instruments in writing including any and all further application papers, affidavits, assignments and other documents, and will communicate to said Assignee, its successors and representatives all facts known to Assignor(s) relating to said improvements and the history thereof and will testify in all legal

proceedings and generally do all things which may be necessary or desirable to cause such invention to be secured and used as such invention, or to secure or enjoy the same right title and interest in and to the improvements, extensions, applications, Letters Patent rights, sales, licenses, privileges and advantages hereby and hereinafter provided or intended to be.

And in witness whereof a declaration and agreement by the execution of this application and the filing hereof and the making of such applications, when actually known.

And furthermore I declare and agree that said invention, or improvements and process, shall be assigned, given, conveyed, licensed or otherwise disposed of the right and property herein contained has been made in whole by Applicant, and that full right and title to the same as herein expressed is possessed by Applicant.

The above identified application was first made or referred to by me, by me, I believe that I am the original inventor or an original joint inventor of a claimed invention in the application.

I hereby acknowledge that any willful false statement made in this declaration is punishable under 18 U.S.C. 1001 for the use or improvement of such means then for the States, or both.
