Sir:

The undersigned submits herewith an Assignment document for the above-noted application.

Applicant's representative notes that although the Assignment lacks an execution date, Applicant's representative believes the execution date to be September 23, 2013 based on the following facts.

Applicant's representative sent to Applicant's client, in a letter dated September 6, 2013, an Assignment and a Declaration for execution by the inventors.

Applicant's representative received an email dated October 29, 2013 which included attached thereto an executed Declaration and an executed Assignment. The executed Declaration specifies an execution date of September 23, 2013 while the Assignment does not specify an execution date.

Following receipt of the same, Applicant's representative sent an email to Applicant's client to request information as to the execution date of the Assignment and indicated in the email that unless Applicant's representative was informed otherwise by November 11, 2013, Applicant's representative would assume that the execution date of the Declaration is the same as the execution date of the

Assignment.

Applicant's representative did not receive any further communication from Applicant's client on this matter as of November 11, 2013.

Accordingly, Applicant's representative is herein submitting the Assignment for recordation using the execution date of September 23, 2013.

If the U.S. Patent and Trademark Office determines that the present assignment is not properly recordable, undersigned respectfully requests prompt notification to the effect so that another assignment may be submitted.

Should there be any questions with regard to this submission, the Examiner is requested to contact the undersigned at the telephone number listed below.
