ASSIGNMENT OF INVENTION AND PATENT RIGHTS

Assignor: Tetra Corporation

Patent No.: 4,741,405

Issue Date: May 3, 1988

For valuable consideration received or to be received, and hereby acknowledged, Tetra Corporation of 3701 Hawkins Street NE, Albuquerque, New Mexico 87109, (hereinafter referred to as "Assignor") hereby sells, assigns and transfers unto SDG LLC, a Nevada limited liability corporation, its successors and assigns (hereinafter referred to as "Assignee"), the entire interest for the United States of America and all foreign countries, including all rights of priority under the international conventions and treaties, in and to a certain invention or improvement known as *Focused Shock Spark Discharge Drill Using Multiple Electrodes*, issued on May 3, 1988 under Patent No. 4,741,405 with the United States Patent and Trademark Office.

Assignor further agrees with Assignee that this Assignment covers all processes, specifications, procedures, techniques and other knowledge and information now or hereafter known to Assignor which are not in the public domain and which relate to the above-mentioned invention or improvement, its manufacture, uses or embodiments, or other matters (the "Related Know-How"). Assignor agrees to disclose or provide all Related Know-How to Assignee when discovered or upon request.

Assignor further covenants that Assignor will promptly provide to Assignee, upon its request, with all pertinent facts and documents relating to said application, said invention and said Letters Patent and legal equivalents in foreign countries as may be known and accessible to Assignor and will testify as to the same in any interference or litigation related thereto and will promptly execute and deliver to Assignee or its legal representative any and all papers, instruments or affidavits required to apply for, obtain, maintain, issue and enforce said application, said invention and said Letters Patent and said equivalents thereof in any foreign country which may be necessary or desirable to carry out the purposes thereof.

Assignor's rights in the above-mentioned invention or improvement and Related Know-How and any patent application(s) and Letters Patent thereon have not been previously assigned, mortgaged or otherwise encumbered, and Assignor has full right, power and authority to assign all such rights to Assignee hereunder.

As used herein, the terms "Assignor" and "Assignee" shall include such parties and their heirs, administrators, estates, successors and assigns of every kind.

Assignor hereby authorizes and requests the Director of the United States Patent and Trademark Office, and all foreign countries' equivalent officials, to issue such Letters Patent as shall be granted on said application or applications based thereon to Assignee.

This Assignment is effective as of Nov, 13, 2013.
