Assignment of Intellectual Property

This Assignment of Intellectual Property Agreement ("Agreement"), dated July 2, 2013 (the "Effective Date") is by and among **CERAMASPEED INC.**, a Delaware corporation ("Assignor") and **GENERAL ELECTRIC COMPANY**, a New York corporation acting by and through its GE Appliances business component ("Assignee").

RECITALS

Assignor and Assignee are parties to an Intellectual Property and Equipment Purchase Agreement dated June 30, 2013 (the "Purchase Agreement"), pursuant to which Assignor has agreed to sell to Assignee and Assignee has agreed to buy from Assignor the Intellectual Property (as defined in the Purchase Agreement) and certain Equipment (as defined in the Purchase Agreement). Pursuant to the Purchase Agreement, Assignor has agreed to execute such instruments as the Assignee may reasonably request in order to more effectively assign, transfer, grant, convey, assure, and confirm to Assignee and its successors and assigns, or to aid and assist in the collection of or reducing to possession by the Assignee of, all of such assets.

In accordance therewith, Assignor wishes to transfer and assign to Assignee, and Assignee wishes to accept the transfer and assignment of, all of their respective right, title and interest in, to and under the patents listed on Schedule A attached hereto and incorporated herein by reference (all of the foregoing being referred to collectively herein as the "Patents").

NOW, THEREFORE, Assignor, in consideration of One Million Five Hundred Ten Thousand, Seven Hundred and Sixty-Nine Dollars (\$1,510,769) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, does hereby transfer and assign to Assignee, and Assignee hereby accepts the transfer and assignment of, all of Assignor's right, title and interest in, to, and under the Patents, all rights to sue for infringement of any Patent, whether arising prior to or subsequent to the date of this Assignment, and any and all renewals and extensions thereof that may hereafter be secured under the laws now or hereafter in effect, the same to be held and enjoyed by the said Assignee, its successors and assigns from and after the date hereof as fully and entirely as the same would have been held and enjoyed by Assignor had this Assignment not been made.

Assignor hereby represents and warrants that is the sole and exclusive legal and equitable owner of the Patents; (b) the Patents are valid and there are no clouds of validity against them in any country of the world; (c) on the Effective Date hereof, there are no outstanding claims for any past, present, or future infringement, misappropriation or unauthorized use of the Intellectual Property or Equipment; and (d) Assignor has not granted any third party any rights in or to the Intellectual Property or Equipment, except as set forth on Exhibit A to the Purchase Agreement.

Except to the extent that federal law preempts state law with respect to the matters covered hereby, this Assignment shall be governed by and construed in accordance with the laws of the State of New York without giving effect to the principles of laws thereof.

IN WITNESS WHEREOF, Assignor and Assignee have executed this Assignment as of the date first above written.

ASSIGNOR:
