**CONFIRMING
ASSIGNMENT OF PATENTS AND PATENT APPLICATIONS**

We, William C. Alexander and Paul A. Bundschuh, having a correspondence address of 5004 Bee Creek Road, Suite 600, Spicewood, Texas 78669 (collectively, as "Assignors") have invented certain new and useful improvements disclosed in the United States Letters Patents and patent applications described in Exhibit A to this Confirming Assignment and incorporated into it by reference (the patents and applications collectively referred to as "the Patents").

Ideal Power, Inc., a Delaware corporation ("Assignee"), whose address is 5004 Bee Creek Road, Suite 600, Spicewood, Texas 78669, wants to acquire the entire right, title and interests in and to the improvements and the Patents.

Assignors have previously made assignments of some or all of the Patents to Assignee, some of which assignments have been recorded with the United States Patent and Trademark Office and some of which have not. Assignors and Assignee enter into this Confirming Assignment to confirm all such previous assignments and to confirm the assignment to Assignee of all right, title and interest in the Patents not previously assigned or assigned and not recorded.

For a good and valuable consideration, the receipt of which is hereby acknowledged, we hereby sell, assign, and transfer to Assignee the entire right, title and interest in and to the improvements and the Patents, and all continuations, continuations-in-part, reissues and extensions thereof, and all priority rights under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other treaties of like purposes for every member country; and all applications for patents, provisional and non-provisional, (including related rights such as utility-model registrations, inventor's certificates, and the like) heretofore or hereafter filed for the improvements in any foreign countries, and all patents (including all extensions, renewals and reissues thereof) granted for the improvements in any foreign countries;

And for the same consideration, we transfer to Assignee all claims and causes of action for infringement arising before the date of this Confirming Assignment.

We covenant that we have full right to convey the entire interests assigned, and that we have not executed, and will not execute, any agreement in conflict with this Confirming Assignment.

We further covenant and agree that we will communicate to Assignee any facts known to us respecting the improvements, and testify in any legal proceeding, sign all lawful papers, execute all reissue applications, make all rightful oaths and generally do

everything possible to aid Assignee to obtain and enforce proper patent protection for the improvements in all countries.

This Confirming Assignment is effective for all purposes as of the effective filing date of each of the Patents, respectively.

SIGNED this the 11 day of ^{November}~~October~~, 2013.
