## ASSIGNMENT

In accordance with my obligations under an Employee Innovation and Proprietary Information Agreement or (as applicable) arising out of other agreements, and/or for other good and valuable consideration of which I acknowledge receipt, I,

Alan G. Furler of New Jersey, US

hereby sell and assign to **Vital Signs, Inc., a New Jersey Corporation**, having an address at 20 Campus Road, Totowa, NJ 07512, USA, (hereinafter referred to as "Company"), its successors and assigns my entire respective right(s), title(s) and interest(s) in and to the invention described in the non-provisional application for United States Patent currently entitled:

### **Breathing Tube for Conveying Oxygen or Anesthesia Gas to Lungs and Conveying Exhaled Gas Away From Lungs of Patient**

☐ executed concurrently herewith,

X filed on April 18, 1997, having Application Number 29/069,748, now U.S. Patent Number D424,687

including the right to sue and recover for past damages, and any and all applications for patent and patents therefrom in any and all countries, including all divisions, continuations, continuations in part, reexaminations and reissues thereof, and all rights of priority resulting from the filing of said United States application, and authorize and request any official whose duty it is to issue patents, to issue any patent on said inventions and improvements resulting therefrom to said Company, or its successors or assigns and agree that on request and without further consideration except reasonable professional compensation for required hours or travel, at the expense of said Company, I will communicate to said Company or its representatives or nominees any facts known to me respecting said inventions and improvements and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuation, reexamination and reissue applications, make all rightful oaths and generally do everything possible to aid said Company, its successors, assigns, and nominees to obtain and enforce proper patent protection for said invention and its improvements in all countries.
