ASSIGNMENT

For good and valuable consideration, the receipt of which is hereby acknowledged, JN Biosciences LLC, a California limited liability company having a place of business at 320 Logue Avenue, Mountain View, California 94043, for itself, its assigns and legal representatives ("Assignor") hereby:

1. Sells, assigns and transfers to National Cheng Kung University, a University in Taiwan, R.O.C. having a place of business at No. 1, University Road; Tainan City 701; TAIWAN ROC, its successors, assigns and legal representatives, all hereinafter referred to as the Assignee, its entire right, title and interest, if any, for the United States and all foreign countries, in and to any and all inventions and designs related to humanized antibodies derived from murine anti-human IL-20 monoclonal antibody 7E, murine anti-human IL-19 monoclonal antibody 1BB1, and murine anti-human IL-20R1 monoclonal antibody 51D, all of which were provided by National Cheng Kung University, Taiwan, R.O.C., to JN Biosciences LLC, such as those disclosed in United States Letters Patent Application Number 131477476 filed 5/22/12, bearing Attorney Docket No. N0521-760056, and entitled Humanized Anti-IL-20 Antibody and uses thereof, and in and to the application and all corresponding provisional, non-provisional, divisional, continuing, substitute, renewal, reissue and all other applications for Letters Patent, utility models, industrial designs or similar intellectual property rights which have been or shall be filed in the United States, internationally, and in any foreign country, including but not limited to China, Japan and Korea, on any of the inventions; and in and to all original and reissued patents which have been or shall be issued in the United States or any other jurisdiction on the inventions, including the right to apply for patent rights in each foreign country and all rights to priority, including the right to claim priority for China, Japan and Korea;
2. Agrees that the Assignee may apply for and receive Letters Patent and utility model and industrial design registrations for the inventions in its own name; and when requested, without charge to but at the expense of the Assignee, agrees to carry out in good faith the intent and purpose of this assignment, by executing all such further assignments, powers of attorney and other papers, by communicating to the Assignee all facts known to it relating to the inventions and the history thereof, and generally by doing everything reasonably possible which the Assignee shall consider desirable for aiding in securing and maintaining proper protection for the inventions and for vesting title to the inventions and all applications for patents and all patents on the inventions, in the Assignee;
3. Requests the Director of the United States Patent and Trademark Office and non-US patent authorities to issue the Letters Patent to the Assignee;
4. Authorizes and requests Wolf, Greenfield & Sacks, P.C. to supply any missing patent/application identification information or correct any errors in the patent/application identification information provided above, whether discovered prior to or after recordation;
5. Covenants with the Assignee that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by it and that full right to convey the same as herein expressed is possessed by it; and
6. Appoints Assignee, through its designee, its attorney-in-fact to execute, in its name and on its behalf, any and all documents required to effectuate this Assignment, specifically including, but not limited to, those documents specified above and any necessary corrective assignments.

This instrument is executed under seal and signed under the pains and penalties of perjury under the laws of the United States of America.
