## ASSIGNMENT

WHEREAS, Holtec Gas Systems, LLC, a Missouri limited liability company, (hereinafter "Assignor") owns an interest in U.S. Patent Application No. 12/210,555 filed September 15, 2008 for "Fire Protection Systems Having Reduced Corrosion";

WHEREAS, Engineered Corrosion Solutions, LLC (formerly known as Fire Protection Systems Corrosion Management, Inc.), a Delaware limited liability company, hereinafter referred to as Assignee, is desirous of acquiring Assignor's right, title, and interest therein:

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy whereof is hereby acknowledged, Assignor agrees to sell, assign and transfer, and hereby does sell, assign and transfer unto Assignee and its successors in interest, Assignor's entire right, title and interest in the United States of America and throughout the world, including the right to claim priority under the laws of the United States, the Paris Convention, and any foreign countries, to the inventions as described in the aforesaid application, to the aforesaid application itself, and all divisions, continuations, continuations-in-part, or other applications claiming priority directly or indirectly from the aforesaid application, and any United States or foreign Letters Patent, utility model, or other similar rights which may be granted thereon, including reissues, reexaminations and extensions thereof, and all copyright rights throughout the world in the aforesaid application and the subject matter disclosed therein, these rights, title and interest to be held and enjoyed by Assignee to the full end of the term for which the Letters Patent, utility model, or other similar rights, are granted and any extensions thereof as fully and entirely as the same would have been held by Assignor had this assignment and sale not been made, and the right to sue for, and recover for past infringements of, or liabilities for, any of the rights relating to any of the applications, patents, utility models, or other similar rights, resulting therefrom, and the copyright rights.

Assignor hereby covenants and agrees to execute all instruments or documents required or requested for the making and prosecution of any applications of any type for patent, utility model, or other similar rights, and for copyright, in the United States and in all foreign countries including, but not limited to, any provisional, continuation, continuation-in-part, divisional, renewal or substitute thereof, any derivation proceedings relating thereto, and as to Letters Patent any supplemental examination, derivation proceeding, opposition, post grant review, reissue, re-examination, inter partes review, or extension thereof, and for litigation regarding, or for the purpose of protecting title to, the said invention, the United States application for patent, or Letters Patent therefor.

Assignor hereby covenants that this sale, assignment and transfer is made free and clear of any liens or other encumbrances, and no assignment, sale, license, agreement or encumbrance has been or will be entered into which would conflict with this Assignment.

This Assignment constitutes the entire agreement between the parties and shall supersede all previous agreements, either oral or written, between the parties with respect to the subject matter hereof. No waiver, consent, modification or change of terms of this Assignment shall bind either party unless in writing and signed by both parties.

Assignor hereby requests the United States Patent and Trademark Office to issue the Letters Patent of the United States of America to Assignee, and requests that any official of any country or countries foreign to the United States, whose duty it is to issue or grant patents and applications as aforesaid, to issue the Letters Patent, Utility Model Registration or other similar right to Assignee.
