For valuable consideration, We:

Hans Eric Peter Strom of Langbackavagen 3, Trosa, S-61992 Sweden; and

hereby assign to: Biopercept AB, a Corporation having a place of business at: Ferievägen 3, Hjärup, S-24564 Sweden, and its successors and assigns (collectively hereinafter the "ASSIGNEE"),

the entire right, title and interest throughout the world in the invention(s) which is/are disclosed and claimed in an application for patent in the United States of America, executed by us, entitled "AGENTS AND METHODS FOR VISUALISING ANALYTES", having an international filing date of November 15, 2011, which is the national phase of PCT/EP11/070172, and having U.S. Serial Number 13/885,393, this assignment including:

the right of ASSIGNEE to claim priority based on the filing date of said application in the United States of America, under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other treaties of like purposes, including without limitation all rights in an international application claiming benefit of priority to said United States patent application, and all rights, privileges and advantages appertaining thereto, including any and all provisional rights;

the right of ASSIGNEE to enforce and to license, and to collect damages, profits or recoveries of any nature for past or future infringement of, any United States or foreign patent(s) that may be granted thereon;

the right of ASSIGNEE to prosecute, with the assistance of competent counsel, any of the foregoing patent applications in any jurisdiction worldwide; and

the right of ASSIGNEE to apply in all countries in my/our name(s) or in its own name for patents, utility models, design registrations, and like rights of exclusion and for inventors' certificates, for said invention(s) and improvement(s);

the same to be held and enjoyed by the ASSIGNEE for its own use and behalf and for the use and behalf of its successors, legal representatives and assigns, absolutely during the residue of the respective terms for which the United States and foreign patents will be granted, and for any and all rights extending from said applications and reissues, and entirely as the same would have been held and enjoyed by us had this assignment not been made; and

We agree for us, and our respective heirs, legal representatives and assigns, without further compensation to perform such lawful acts and to sign such further applications, assignments, Declarations and other lawful documents as ASSIGNEE may reasonably request to effectuate fully this assignment.
