THIS DEED made this 20th day of May 2011

BETWEEN

Kaluachchi Gamage Karnika De Silva, a New Zealand citizen of 3 Puketutu Rise, Hillsborough, Auckland 1042, New Zealand,

Debes Bhattacharyya, a New Zealand citizen of 14 Whitworth Road, Mount Eden, Auckland, New Zealand and

Allan James Easteal, a New Zealand citizen of 454/221 Abbotts Way, Remuera, Auckland 1050, New Zealand
(the "Inventors")

AND

Auckland UniServices Limited, a New Zealand Company of Level 10, 70 Symonds Street, Auckland, New Zealand (the "Assignee")

BACKGROUND

A. The Assignee is a company wholly owned by the University of Auckland responsible for the management of all of the intellectual property rights of the University of Auckland, and all of those rights are vested by the University of Auckland in the Assignee.

B. The Inventors are employees of, are contracted to, have been commissioned by, or have or will be remunerated financially or otherwise by, the University of Auckland or the Assignee, and in the course of this relationship have conducted research which has conceived and reduced to practice an invention entitled "**FIRE RETARDANT POLYPROPYLENE**" as further defined by reference to a provisional patent specification filed with New Zealand Patent Application No. **590534** filed on **17 January 2011** (the "Invention", which term shall include any modifications, improvements or additions which in terms of legal protection by way of patent may form part of this Invention).

C. In the course of developing the Invention the Inventors have produced or had produced works in which copyright may exist, including, without limitation, sketches, drawings, photographs, formulae, prototypes, models, descriptions, tables, technical data and databases (the "Works"), but specifically excluding copyright in academic publications for which the Inventor(s) is/are author.

NOW THIS DEED WITNESSES

1. In consideration of the employment, contract, commissioning and/or other valuable consideration, and one dollar New Zealand currency (NZ\$1.00), the receipt and sufficiency of which the Inventors acknowledge, the Inventors HEREBY ASSIGN AND TRANSFER to the Assignee, its successors and assigns, absolutely, all their right, title and interest in the Invention and the Works for all countries and regions of the world, including, without limitation, the right to apply for, claim Convention priority in respect of,

obtain and hold intellectual property protection for the Invention and/or Works, by way of patent, copyright, design or any other form of protection which may be available in any country or region.

2. The Inventors undertake to carry out any functions, including the execution of any documents, which may be necessary to give effect to the assignment of rights in any country or region, including for the filing, obtaining, maintenance or enforcement of any patent, design, copyright or other intellectual property right in the name of the Assignee, at the reasonable request and expense of the Assignee.

3. To the extent that an Inventor signature required under clause 2 above cannot practically be obtained, the Inventors hereby grant the Assignee an irrevocable power of attorney to sign any document on their behalf for any specific purpose covered by clause 2 above, but for no other purpose.

4. In respect of the Works, the Inventors hereby waive any moral rights capable of waiver, including the right to be acknowledged as author of any such Works and the right to object to derogatory treatment of the Works. For the sake of clarification, this clause does not interfere with the Inventors' rights to be named as inventor on any patent application, nor does it interfere with the Inventors' rights to copyright in any academic publication in respect of which he/she is the author.
