## Assignment

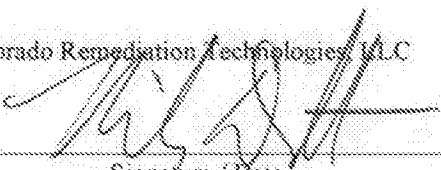

This Assignment is made as of January 20, 2014, by Colorado Remediation Technologies, LLC, a Colorado limited liability company ("Assignor") in favor of Fortinet, Inc., a Delaware corporation ("Assignee").

For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor hereby:

1. Assigns to Assignee all of its right, title and interest in and to the United States patent(s) and/or United States patent application(s) as set forth in Attachment 1 attached hereto and incorporated herein by this reference ("Patents"), all original and reissued Letters Patents that have been or shall be issued in the United States and in all foreign countries for such Patents; and in and to all divisional, continuing, reissue, extension, substitution and renewal applications, and all other patent applications that have been filed or shall be filed in the United States and in any foreign countries, claiming the benefit of priority to such Patents; and in and to all rights of priority attaching to said Patents, including all rights under the International Convention; and all proceeds of said Patents (including but not limited to, all license royalties and proceeds of infringement suits), and in and to any and all causes of action (excepting claims upon the United States of America) for past, present, and future infringement of said Patents, including the right to collect royalties and seek injunctive relief, for all such infringements and the right to sue on all such causes of action for their own use and benefit and the use and benefit of their successors, assigns and legal representatives, and in and to all reissues and reexaminations thereof.
2. Agrees to assist Assignee in every reasonable way to enforce the Patents. To that end, Assignor will execute, verify and deliver such documents and perform such other acts (including appearing as a witness) as Assignee may reasonably request for use in perfecting, evidencing, sustaining and enforcing such Patents and the assignment thereof.
3. Covenants and agrees that Assignor or Assignor's executors or administrators shall, at any time upon request, without further or additional consideration, but at the expense of said Assignee, its successors and assigns, execute such additional writings and do such additional acts as said Assignee, its successors and assigns, may deem necessary or desirable to perfect the Assignee's enjoyment of this grant, and render all necessary assistance in reissuance and/or reexamination of the Patents and in enforcing any rights, occurring as a result of such Patents, by giving testimony in any proceedings or transactions involving such Patents.

In witness whereof, Assignor has executed this Assignment as of the day and year first above written.
