### ASSIGNMENT

**WHEREAS ELI LILLY AND COMPANY**, an Indiana corporation having its principal place of business at Lilly Corporate Center, Indianapolis, Indiana 46285 ("LILLY") has been assigned the entire interest in each and every invention that is the subject of a U.S. patent application titled **SPREADING APPLICATOR**, filed with the United States Patent and Trademark Office on 11/26/2013, as application Serial No. 291473,895 (hereinafter the "Application");

LILLY hereby gives permission to insert above the serial number(s) and filing date(s) for the Application when it is known.

**WHEREAS ACRUX DDS PTY LTD**, having its principal place of business at 103-113 Stanley Street, West Melbourne, Victoria, 3003 Australia, wishes to acquire the entire interest in the Application and in all inventions disclosed in the Application;

**NOW, THEREFORE**, in consideration of good and valuable consideration, the receipt of which is hereby acknowledged, LILLY hereby assigns to Acrux DDS Pty Ltd, its successors and assigns (collectively "Acrux") its entire right, title and interest in, to and under the Application, including all priority rights for other countries arising therefrom, all inventions therein disclosed, and any and all present or future patent applications to such inventions that may be filed in any country, inclusive of, but not limited to, continuations, continuations-in-part, divisions, substitutions, reexaminations, reissues, international applications claiming some or all of this invention, certificates of addition, utility models, petty patents, as well as all other intellectual property related to the Application, inclusive of, but not limited to, supplementary protection certificates; and any related patent term extensions which may be granted for Letters Patent with respect thereto; all of the above to be held and enjoyed by Acrux, its successors and assigns, for their own use and enjoyment to the full end of the term or terms for which such Letters Patent and related intellectual property rights may be granted, as fully and entirely as the same would have been held and enjoyed by LILLY had this Assignment and sale to Acrux not been made.

For itself and for its successors and assigns, LILLY covenants that no assignment, sale, agreement or encumbrance has been or will be made or entered into which would conflict with this Assignment.

For itself and for its successors and assigns, LILLY further covenants and agrees with Acrux that upon request LILLY and they will, without further consideration than that now paid, but at the expense of Acrux or its successors or assigns: (i) execute original, provisional, substitute, continuation, divisional, continuation-in-part, reexamined, or reissued applications, amended specifications, or rightful declarations or oaths for such application; (ii) communicate to Acrux or its successors or assigns any facts known to LILLY or them relating to such inventions or the history thereof; (iii) execute preliminary statements and testify in any interference proceedings, litigation discovery proceedings and depositions, oppositions, cancellation proceedings, priority contests, public use proceedings, administrative agency proceedings, litigation and other court actions and the like; (iv) execute and deliver any application papers, affidavits, declarations, assignments, or other

instruments; and (v) do all other acts which, in the opinion of counsel for Acrux or its successors or assigns, may be necessary or desirable to secure the grant of Letters Patent and related intellectual property to Acrux or its nominees, successors or assigns in the United States and in all other countries where Acrux or its successors or assigns may desire to have such inventions, or any of them, patented, with specifications and claims in such form as shall be approved by counsel for Acrux or its successors or assigns and to vest and confirm in Acrux or its nominees, successors or assigns the full and complete legal and equitable title to all such Letters Patent and related intellectual property.
