RECITALS

WHEREAS, the Purchaser, Royal Appliance Manufacturing Company, an Ohio corporation, Oreck Corporation, a Delaware corporation ("*Oreck*"), its wholly-owned subsidiaries listed on Schedule I of the Purchase Agreement, including the Assignor (collectively with Oreck, the "*Sellers*"), Oreck (Shenzhen) Management Consulting Co. Ltd., a company organized under the laws of Shenzhen, China, Oreck Limited, a company organized under the laws of the United Kingdom, and Oreck Franchise Services, LLC, a Delaware limited liability company, have entered into that certain Asset Purchase Agreement, dated as of July 24, 2013 (the "*Purchase Agreement*"), pursuant to which the Sellers have agreed to sell, transfer, convey, assign and deliver to the Purchaser, and the Purchaser has agreed to purchase and accept from the Sellers, substantially all the assets, and certain specified liabilities, of the Business, all as more fully described therein;

WHEREAS, the Purchaser has designated the Assignee to assume and accept the Intellectual Property that is part of the Purchase Assets;

WHEREAS, under the terms of the Purchase Agreement, the Assignor has sold, conveyed, transferred and assigned to the Assignee certain intellectual property of the Assignor, and has agreed to execute and deliver this Patent Assignment, for recording with governmental authorities including, but not limited to, the U.S. Patent and Trademark Office;

NOW THEREFORE, the parties agree as follows:

AGREEMENT

1. Assignment. In consideration for the execution of the Purchase Agreement, the payment of the consideration stipulated in the Purchase Agreement and other good and valuable consideration, the receipt and sufficiency are hereby acknowledged, the Assignor hereby irrevocably sells, conveys, transfers and assigns to the Assignee, and the Assignee hereby purchases and accepts, all of the Assignor's right, title and interest in and to the following (the "*Assigned Patents*");

(a) the inventions which are described in the patents and patent applications set forth in Schedule 1 hereto, as well as the patents and patent applications set forth in Schedule 1, and all issuances, divisions, continuations, continuations-in-part, reissues, extensions, reexaminations and renewals thereof in the United States and its territorial possessions and all foreign countries (the "*Patents*");

(b) all rights of any kind whatsoever of the Assignor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions and otherwise throughout the world;

(c) any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(d) any and all claims and causes of action, with respect to any of the foregoing, whether accruing before, on and/or after the date hereof, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement, misappropriation, violation, misuse, breach or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. Recordation and Further Actions. The Assignor authorizes the U.S. Commissioner for Patents and any other governmental officials to record and register this Patent Assignment upon request by the Assignee. the Assignor shall take such steps and actions following the date hereof, including the execution of any documents, files, registrations, or other similar items, to ensure that the Assigned Patents are properly assigned to the Assignee, or any assignee or successor thereto.

3. No Conflicting Assignment. Assignor hereby warrants and covenants that no assignment, sale, agreement, or encumbrance has been or will be made or entered into which would conflict with this assignment and sale.

4. Further Assistance. Assignor further warrants and covenants that Assignee will, upon its request, be provided promptly with all pertinent facts and documents relating to said inventions, patents and patent applications set forth on Schedule I hereto, and legal equivalents in foreign countries as may be known and accessible to Assignor, and will testify as to the same in any Patent Office proceeding or litigation related thereto and will promptly execute and deliver to Assignee or its legal representative any and all papers, instruments, or affidavits required to apply for, obtain, maintain, issue, and enforce said patents, patent applications, said inventions, and said equivalents thereof in any foreign country which may be necessary or desirable to carry out the purposes thereof.

5. Counterparts. This Patent Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same agreement. A signed copy of this Patent Assignment delivered by facsimile, e-mail or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this Patent Assignment.

6. Successors and Assigns. This Patent Assignment shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.

7. Governing Law. This Patent Assignment and any claim, controversy, dispute or cause of action (whether in contract, tort or otherwise) based upon, arising out of or relating to this Patent Assignment and the transactions contemplated hereby shall be governed by and construed in accordance with the internal laws of the State of Delaware without giving effect to any choice or conflict of law provision or rule (whether of the State of Delaware or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the State of Delaware.
