RECORDABLE CONFIRMATORY ASSIGNMENT

THIS CONFIRMATORY ASSIGNMENT ("Confirmatory Assignment") is made pursuant to the Intellectual Property Assignment Agreement dated January 1, 2011 (the "Assignment Agreement") between Medical Engineering and Development Institute, Inc. and Cook Medical Technologies LLC ("Assignee").

WHEREAS, prior to the Assignment Agreement, Medical Engineering and Development Institute, Inc. D/B/A MED Institute, Inc. ("Assignor") possessed a registered right, title, and interest in and to the U.S. patent application and all inventions described therein related to "INTRODUCER FOR ENDOVASCULAR IMPLANTS" and being described in U.S. Provisional Patent Application No. 61/135,263 filed on July 18, 2008, and any and all applications claiming the benefit thereof including the right of priority, and described in U.S. Non-Provisional Application No. 13/008,366 filed on July 16, 2009, and PCT Application No. PCT/US2009/004126 filed on July 16, 2009 (collectively, the "Applications"), under the officially-registered trading name of MED INSTITUTE, INC. as evidenced by the documents in Schedule A attached hereto.

WHEREAS, pursuant to Sections 2.1 and 3.1 of the Assignment Agreement, Assignor agreed to execute this Confirmatory Assignment to confirm the assignment of the Applications on January 1, 2011, for the purpose of recording Assignee's rights with any appropriate patent authority in any country throughout the world, including the United States Patent and Trademark Office.

WHEREAS the assignment effected by the Assignment Agreement included the Applications and all divisionals, renewals, continuations, reissues, re-examinations, and extensions thereof, and all foreign equivalents thereof, including all Letters Patent and applications for Letters Patent claiming priority from such U.S. Patents, divisionals, renewals, or continuations in any country (including, without limitation, the right to claim priority from any related application and the right to sue for past, present and future infringements in the United States and in all foreign countries).

WHEREAS, to the extent that the Assignment Agreement did not assign to Assignee all of Assignor's right, title and interest in the Applications, Assignor desires to assign such rights, title and interest to Assignee, and Assignee desires to accept such an assignment.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby confirms its prior contribution, assignment and transfer to the Assignee of all of Assignor's rights, title and interest in the Applications, or otherwise assigns, transfers, and contributes to the Assignee all of Assignor's rights, title and interest in the Applications, including all inventions described therein.

The Assignor also hereby requests the United States Patent and Trademark Office and the relevant patent authority in any other country throughout the world to record this Assignment to the Assignee. The Assignor hereby further authorizes and requests the United States Patent and Trademark Office and any relevant patent authority in any other country throughout the world to
