## PATENT ASSIGNMENT

For good and valuable consideration, the receipt of which is hereby acknowledged, Forbes Medi-Tech Inc., a corporation organized under the British Columbia Business Corporations Act ("**Assignor**"):

1. hereby sells, assigns and transfers to Pharmachem Laboratories, Inc., a New Jersey corporation ("**Assignee**"), for itself and its successors, transferees and assignees, (a) Assignor's entire and exclusive right, title and interest, in any jurisdiction, in and to all inventions and improvements ("**Subject Matter**") that are disclosed in the patents and patent applications set forth on Schedule 1 ("**Patent Rights**") and (b) Assignor's entire and exclusive right, title and interest, in any jurisdiction, in and to: (i) the Patent Rights, including any right of priority; (ii) any divisional, continuation, continuation-in-part, substitute, renewal, reissue or reexamination of the Patent Rights, and any other applications claiming priority thereto which have been or may be filed in Canada, the United States, or elsewhere in the world; (iii) any patents which may be granted on the applications set forth in (i) and (ii) above; and (iv) the right to sue in its own name and to recover for past, present and/or future infringement of any or all of any applications or patents set forth in (i), (ii) and (iii) above.

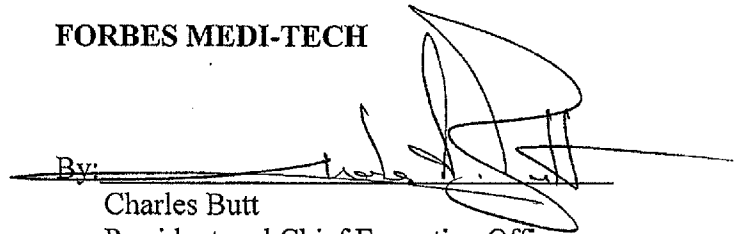

2. agrees, to the extent provided in Section 6.6 of the Purchase Agreement (as defined below), to do the following, when requested, and without further consideration but at Assignee's expense, in order to carry out the intent of this Assignment: (a) execute all oaths, declarations, assignments, powers of attorney, applications and other papers necessary or desirable to fully secure to Assignee the rights, titles and interests herein conveyed; (b) communicate to Assignee all known facts relating to the Subject Matter, and the applications and patents conveyed in section 2, above; and (c) generally do all lawful acts that Assignee reasonably requests for securing, maintaining and enforcing worldwide patent protection relating to the Subject Matter, and the applications and patents conveyed in section 2, above, and for vesting in Assignee the rights, titles and interests herein conveyed. Assignor hereby appoints Assignee as Assignor's attorney-in-fact (this appointment being irrevocable and coupled with an interest) to execute such documents and instruments on its behalf. Assignor further agrees to provide any successor, transferee, assignee or legal representative of Assignee with the benefits and assistance provided to Assignee hereunder.

3. represents that it has not made, and covenants that it will not hereafter make, any assignment, grant, mortgage, license or other agreement affecting the rights, titles and interests herein conveyed.

4. agrees, to the extent of any conflict between the terms and conditions of this Patent Assignment and the terms and conditions of the Asset Purchase Agreement dated as of August 20, 2010, by and between Assignor and Assignee (the "**Purchase Agreement**"), the terms and conditions of the Purchase Agreement shall govern, supersede and prevail. Notwithstanding anything to the contrary herein, nothing herein is intended to, nor shall it, extend, amplify or otherwise alter the representations, warranties, covenants and obligations of Assignor or Assignee contained in the Purchase Agreement.

IN WITNESS WHEREOF, Assignor has caused this Patent Assignment to be executed as of this 26<sup>th</sup> day of August, 2010.
