SHORT-FORM PATENTS SECURITY AGREEMENT

WHEREAS, Optis Wireless Technology, LLC, a Delaware limited liability company (the "Grantor") has applied for letters patent and has been granted letters patents in the United States Patent and Trademark Office, and is the owner of the patent applications and patents listed in the attached Schedule of Patents and Patent Applications associated therewith;

WHEREAS, the Grantor has contemporaneously with the execution of this Short-Form Patents Security Agreement entered into the Pledge and Security Agreement dated as of January 16, 2014 (as modified from time to time, the "Security Agreement"), in which the Grantor has granted certain interests in favor of Highbridge Principal Strategies, LLC, as collateral agent (the "Collateral Agent") for the benefit of the Secured Creditors (as defined therein);

WHEREAS, pursuant to the Security Agreement, the Grantor has agreed with the Collateral Agent and the Secured Creditors to execute this Short-Form Patents Security Agreement;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Grantor hereby grants to the Collateral Agent for the benefit of the Secured Creditors, to the extent provided in the Security Agreement (the terms and conditions of which are hereby incorporated herein), a security interest in all of its right, title and interest in, to and under all the patents and patent applications whether now owned or at any time hereafter acquired, of the Grantor issued by, or for which applications have been filed with, the United States Patent and Trademark Office, including the patents and applications on the attached Schedule of Patents and Patent Applications, and all related patents and applications thereto, including all reissuances, continuations, continuations-in-part, revisions, extensions, re-examinations thereof, any patents and patent applications claiming priority to said patents and patent applications or from which said patents and patent applications claim priority, and pending applications associated therewith, as collateral security for the prompt and complete payment and performance when due of all the Secured Obligations (as defined in the Security Agreement). Notwithstanding the foregoing, in the event of any conflict between this Short-Form Patents Security Agreement and the Security Agreement, the Security Agreement shall control.

Dated: January 16, 2014

			2006. The United States Patent and Trademark Office did receive my request, but sent a response stating that word "Improved" is not to be included as the first word in title of a patent application. I just wanted to keep you informed that I did notice the discrepancy and it has been noted in the Patent Office but will not be added in the title as initially filed." /ecscane
