PATENT ASSIGNMENT

This **PATENT ASSIGNMENT** (the "Assignment"), dated as of July 21, 2011 (the "Effective Date"), is made by **GESTURETEK, INC.**, a Delaware corporation having its principal place of business located at 530 Lakeside Drive, Suite 280, Sunnyvale, CA 94085 (the "Parent Seller"), **GESTURETEK CANADA INC.**, a company amalgamated under the Laws of the Province of Ontario, Canada, having its principal place of business located at 317 Adelaide Street West #903, Toronto, ON M5V 1P9 (the "Subsidiary Seller" and together with the Parent Seller, the "Assignors"), in favor of **QUALCOMM INCORPORATED**, a Delaware corporation having its principal place of business located at 5775 Morehouse Drive, San Diego, CA 92121 (the "Assignee"). Capitalized terms used but not defined herein have the meanings ascribed to them in the Asset Purchase Agreement (defined below).

WHEREAS, the Assignee, QUALCOMM Canada Inc., an Ontario corporation, the Parent Seller and the Subsidiary Seller are parties to that certain Asset Purchase Agreement, dated of even date herewith (the "Asset Purchase Agreement"), pursuant to which the Assignors have, among other things, agreed to sell, assign, transfer, convey, and deliver to the Assignee all of the Assignors' right, title, and interest in and to the Assigned Patents (defined below); and

WHEREAS, pursuant to the Asset Purchase Agreement, the Assignors and the Assignee have agreed to enter into this Assignment.

NOW, THEREFORE, in consideration of the promises and covenants set forth in the Asset Purchase Agreement and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto agree as follows:

1. Conveyance. Other than the Retained Rights as set forth in the Asset Purchase Agreement and the rights of the Assignors pursuant to the License Agreement, the Assignors hereby sell, assign, transfer, convey, and deliver to the Assignee all of the Assignors' right, title and interest in and throughout the United States of America, its territories and all foreign countries, in, to and under the issued patents and patent applications listed on Schedule A hereto, including all reissues, divisionals, continuations, continuations-in-part, revisions, reexaminations, extensions and counterparts (whether foreign or domestic) claiming priority to or based on any of the foregoing items, together with all patents issuing therefrom, all inventions and improvements claimed or described in any of the foregoing, all rights to collect royalties, products and proceeds in connection with any of the foregoing (collectively, the "Assigned Patents"), and all rights to sue and bring other claims for past, present and future infringement, misappropriation or other violation of any of the foregoing and all rights to recover damages (including attorney's fees and expenses) or lost profits in connection therewith.

2. Recordation. The Assignors hereby request the United States Patent and Trademark Office Commissioner for Patents and any other applicable governmental entity or registrar (including any applicable foreign or international office or registrar), to record the Assignee as the assignee and owner of the Assigned Patents. The Assignors further authorizes the respective

patent office or governmental agency in each other jurisdiction to issue any and all patents or certificates of invention which may be granted upon any of the Assigned Patents in the name of the Assignee, as the assignee to the entire interest therein, it being understood that any expense in connection with the execution of such recordation shall be borne by the Assignee.

3. Information and Assistance.

3.1 Upon the Assignee's reasonable request and without further compensation, the Assignors shall execute, acknowledge and deliver all such other instruments and documents and shall take all such other actions reasonably necessary or required by law to consummate and make fully effective the transaction contemplated by this Assignment.

3.2 If the Assignors fail to timely comply with Section 3.1 (regardless of fault) and the Assignee is therefore unable to secure the Assignors' signature to any document required to file, prosecute, register or memorialize the assignment of any rights under any Assigned Patents as provided under this Assignment, the Assignors hereby irrevocably designate and appoint the Assignee and the Assignee's duly authorized officers and agents as the Assignors' agents and attorneys-in-fact to act for and on the Assignors' behalf and instead of the Assignors to take all lawfully permitted acts to further the filing, prosecution, registration, memorialization of assignment, issuance and enforcement of rights under such Assigned Patents, all with the same legal force and effect as if executed by the Assignors. The foregoing is deemed a power coupled with an interest and is irrevocable.

4. Successors and Assigns. This Assignment and all the provisions hereof shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and permitted assigns and nothing herein express or implied shall give or be construed to give to any person, other than the parties hereto and their respective successors and permitted assigns, any legal or equitable rights hereunder.

5. Counterparts. This Assignment may be executed and delivered (including by facsimile or electronic transmission) in two or more counterparts, each of which when executed and delivered shall be deemed to be an original but all of which taken together shall constitute one and the same agreement.

6. Section Headings. The section headings contained in this Assignment are for reference purposes only, and shall not in any way affect the meaning or interpretation of this Assignment.

7. Asset Purchase Agreement Controls. This Assignment is provided pursuant to the Asset Purchase Agreement, to which reference is made for a further statement of the rights and obligations of the Assignors and the Assignee with respect to the Assigned Patents. Nothing contained in this Assignment shall be deemed to modify, supersede, enlarge, limit or affect the rights of any person under the Asset Purchase Agreement. If any provision of this Assignment is inconsistent or conflicts with the Asset Purchase Agreement, the Asset Purchase Agreement shall control.

8. Governing Law. This Assignment shall be governed by, and construed and enforced in accordance with, the laws of the State of Delaware other than conflict of laws principles thereof directing the application of any law other than that of Delaware. Courts within the State of Delaware will have jurisdiction over all disputes between the parties hereto arising out of or relating to this Agreement. The parties hereby consent to and agree to submit to the jurisdiction of such courts. Each of the parties hereto waives, and agrees not to assert in any such dispute, to the fullest extent permitted by applicable law, any claim that (a) such party is not personally subject to the jurisdiction of such courts, (b) such party and such party's property is immune from any legal process issued by such courts or (c) any litigation commenced in such courts is brought in an inconvenient forum.
