We, Chandrakanth Siddharthan of 1446 Hartland Drive, Troy, Michigan 48083, and Conrad C. Dumbrique of 1003 Inca Trail, Lake Orion, Michigan 48362, and James T. Hoskyns of 1121 Walloon Way, Lake Orion, Michigan 48360, have invented the inventions described in a United States Patent Application titled AIRBAG SYSTEMS WITH ENERGY-ABSORBING COMPONENTS in the United States Patent and Trademark Office, for which I executed a declaration. If the patent application has been filed, I hereby authorize any practitioner associated with Customer No. 118578 to insert the application number and filing date of said application here in parentheses (Serial No. 14/201,257 filed on March 7, 2014) when known.

The Assignee, Autoliv ASP, Inc., of 3350 Airport Road, Ogden, Utah 84405, desires to secure the entire right, title and interest therein.

For good and valuable consideration, the receipt and sufficiency of which we hereby acknowledge, WE HEREBY ASSIGN TO THE ASSIGNEE:

The entire right, title and interest in said inventions in the above-identified United States patent application and in all non-provisional patent applications, divisionals, continuations, and continuations-in-part of said application, or reissues or extensions of Letters Patent or Patents granted thereon, and in all corresponding applications filed in countries foreign to the United States, and in all patents issuing thereon in the United States and Foreign countries.

The right to file foreign patent applications on said invention in its own name, wherever such right may be legally exercised, including the right to claim the benefits of the International Convention for such applications.

We hereby authorize and request the United States Commissioner of Patents and Trademarks, and such Patent Office officials in foreign countries as are duly authorized by their patent laws to issue patents, to issue any and all patents on said invention to the Assignee as the owner of the entire interest, for the sole use and benefit of the said Assignee, its successors, assigns and legal representatives.

We hereby agree, without further consideration and without expense to us, to sign all lawful papers and to perform all other lawful acts which the Assignee may request of us to make this Assignment fully effective, including, by way of example but not of limitation, the following:

Prompt execution of all original, divisional, substitute, reissue, and other United States and foreign patent applications on said invention, and all lawful documents requested by the Assignee to further the prosecution of any such patent applications.

Cooperation to the best of our ability in the execution of all lawful documents, the production of evidence, nullification, reissue, extension, or infringement proceedings involving said invention.
