## **EXHIBIT B**

### **PATENT ASSIGNMENT**

WHEREAS, Telmap Ltd., a private company incorporated under the laws of the State of Israel (hereinafter "**Company**"), is the sole and exclusive owner of certain United States and non-United States patents and patent applications listed in Schedule 1 annexed hereto (collectively referred to as the "**Patents and Patent Applications**");

AND WHEREAS, Intel Corporation ("**Intel**"), a company incorporated in Delaware, with an office at 2200 Mission College Boulevard, Santa Clara, 95052, have entered into an Intellectual Property Transfer Agreement dated as of January 30, 2014 (the "**Transfer Agreement**");

AND WHEREAS, Intel wants to acquire the right, title and interest in, to and under the Patents and Patent Applications (and all foreign counterparts and related foreign patents).

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, the Company does hereby sell, transfer, convey, assign and deliver to Intel and its successors and assigns all right, title and interest that may exist today and in the future to any and all:

- (1) Patents and Patent Applications;
- (2) patents and patent applications to which any of the Patents and Patent Applications directly or indirectly claims, or forms the basis for, priority anywhere in the world;
- (3) reissues, reexaminations, extensions, continuations, continuations-in-part, continuing prosecution applications and divisions of any of the items listed in (1) or (2) of this Patent Assignment;
- (4) foreign counterparts to any of the items listed in (1), (2) or (3) of this Patent Assignment, including utility models, inventors' certificates, industrial design protection and any other form of governmental grants or issuances for the protection of inventions, designs or discoveries;
- (5) inventions, invention disclosures, designs and discoveries described in the items listed in (1) through (4) of this Patent Assignment;
- (6) patents that issue from any of the items listed in (1) through (5) of this Patent Assignment;
- (7) claims, causes of action and enforcement rights of any kind, whether currently

pending, filed or otherwise, and whether known or unknown, under or arising from any of the items listed in (1) through (6) of this Patent Assignment, including all rights to pursue and collect damages, costs, injunctive relief and other remedies for past, current or future infringement of the Patents and including rights afforded under 35 U.S.C. § 154(d);

- (8) royalties, income and other payments due as of the date hereof or hereafter under or arising from any of the items listed in (1) through (7) of this Patent Assignment; and
- (9) rights to apply for, file, register, maintain, extend and renew in any or all countries of the world patents, certificates of invention, utility models, industrial design protection, design patent protection and other governmental grants or issuances of any kind related to any of the items listed in (1) through (9) of this Patent Assignment.

AND Telmap hereby authorizes and requests the Commissioner of Patents and Trademarks and any other patent office to issue any and all patents, utility models or other governmental grants or issuances pertaining to any of the items assigned hereunder in the name of Intel;

AND Telmap does hereby covenant with Intel and the successors and permitted assigns of Intel that Telmap will promptly execute and deliver to Intel or shall promptly procure the execution and delivery of any and all such instruments of sale, transfer, conveyance, assignment and delivery, consents, assurances, powers of attorney and other instruments as may reasonably be requested by Intel in order to vest in Intel all of Telmap's right, title and interest in and to the Patents and Patent Applications and carry out the purpose and intent of this Patent Assignment and the Transfer Agreement;

AND notwithstanding any other provisions of this Patent Assignment to the contrary, nothing contained in this Patent Assignment shall in any way supersede, modify, replace, amend, change, rescind, waive, exceed, expand, enlarge, or in any way affect the provisions, including warranties, covenants, agreements, conditions, representations, or in general any of the rights and remedies, or any of the obligations and indemnifications of Telmap or Intel set forth in the Transfer Agreement. This Patent Assignment is intended only to effect the transfer of certain intellectual property transferred pursuant to the Transfer Agreement and shall be governed entirely in accordance with the terms and conditions of the Transfer Agreement;

AND the terms and covenants of this Patent Assignment shall inure to the benefit of Intel, its successors and assigns, and shall be binding upon Telmap and its successors and assigns. All capitalized terms used herein but not otherwise defined shall have the meanings set forth in the Transfer Agreement.

IN WITNESS WHEREOF, the Company has executed this Assignment of Patent Rights as of the 30 day of January, 2014.
