ASSIGNMENT

WHEREAS, I/we, MICHAEL GLICK a citizen of the U.S.A., residing at 39204 Plumbrook Dr., Farmington Hills, MI 48331; SLOBODAN PAVLOVIC a citizen of Canada, residing at 50004 Streamwood Dr., Novi, MI 48374; RESHMA RATHOD, a citizen of India, residing at 2845 Tall Oaks Ct. Apt.23, Auburn Hills, MI 48326; and TULASI SADRAS-RAVINDRA a citizen of India, residing at 1715 Heron Circle, MI 48187; have invented an invention embodied in a patent application titled: CYLINDRICAL ELECTRIC CONNECTOR WITH BIASED CONTACT, identified by the Docket No. written above and by the following Serial No. and filing date: U.S. Provisional Patent Application identified as Serial No. 61/765,273, filed February 15, 2013; and U.S. Utility Patent Application identified as 14/177,976
filed February 11, 2014 ("the Application");

WHEREAS, LEAR CORPORATION, a corporation duly organized under the laws of Delaware, having its principal place of business at 21557 Telegraph Road, Southfield, Michigan 48034 ("the Company"), desires to acquire the entire right, title, and interest in and to the invention and any patent that may issue from the Application or for the invention anywhere in the world; and, I hereby authorize and request legal representatives of the Company to insert above the filing information when it becomes known;

THEREFORE, for value received, I now assign and transfer to the Company, or its successors or assigns, the entire right, title and interest in and to the invention, including the Application, any application to which the Application claims priority, and any non-provisional, continuation, divisional or continuation-in-part application derived from the Application, in the United States and all foreign countries, including the right of priority under any international convention, including the International Convention of 1883 and its

later modifications, and the Patent Cooperation Treaty as amended, and including the entire right, title and interest to any Letters Patent that may issue from the Application or for the invention in any country of the world; and I request the granting authority of any country to issue to the Company any patent that may issue from the Application or for the invention, in accordance with the terms of this assignment.

I hereby represent that I have the full right to convey my entire right, title and interest herein assigned and that I have not executed any agreement in conflict with this assignment; and I covenant that I will not execute any agreement in conflict with this assignment.

I agree to execute any and all further documents requested by the Company, its successors or assigns, for the prosecution of the Application or of any divisional, continuation, continuation-in-part, reissue, or reexamination of the Application, or for securing foreign patents covering the invention; and also any further documents requested by the Company its successors or assigns to more fully vest in itself the entire right, title, and interest to the invention or to any further application or patent that may be filed or secured on the invention. And I agree to reasonably assist in all legal proceedings relating to the invention.
