ASSIGNMENT

We, the undersigned, Marcus Eng Hock ONG, Zhiping LIN, Wee SER and Guangbin HUANG of residence as listed, are the inventors of the invention disclosed in the application for the United States Letters Patent that was filed as a Provisional application on 15 March 2010 and assigned Application No. 61/313,822 and is entitled Method Of Predicting The Survivability Of A Patient. We wish to assign our rights as follows:

(1) In consideration of good and valuable consideration, the receipt of which is hereby acknowledged, I/we, the undersigned, Marcus Eng Hock ONG of residence as listed, hereby sell, assign and transfer to Singapore Health Services Pte Ltd, a company organized and existing under the laws of Singapore having a principal place of business at 31 Third Hospital Avenue, #03-03, Bowyer Block C, Singapore 168753 ("Assignee"), and their successors, assigns, and legal representatives, his entire right, title, and interest for the United States and all foreign countries, in and to any and all improvements that are disclosed in the application for the United States Letters Patent that was filed as a Provisional application on 15 March 2010 and assigned Application No. 61/313,822 and is entitled Method Of Predicting The Survivability Of A Patient, and in and to said application and all patent applications, provisionals, divisional applications, continuation applications, continued prosecution applications, continuation-in-part applications, substitute applications, renewal applications, reissue applications, reexaminations, extensions, and all other patent applications that have been or shall be filed in the United States and all foreign countries on any of said improvements; and in and to all original patents, reissued patents, reexamination certificates, and extensions, that have been or shall be issued in the United States and all foreign countries on said improvements; and in and to all rights of priority resulting from the filing of said United States application;

agree that said Assignee may apply for and receive a patent or patents for said improvements in its own name; and that, when requested, without charge to, but at the expense of, said Assignee, its successors, assigns, and legal representatives, to carry out in good faith the intent and purpose of this Assignment, the undersigned will execute all patent applications, divisional applications, continuation applications, continued prosecution applications, continuation-in-part applications, substitute applications, renewal applications, reissue applications, reexaminations, extensions and all other patent applications on any and all said improvements; execute all rightful oaths, assignments, power of attorney, and other papers; communicate to said Assignee, its successors, assigns, and representatives all facts known to the undersigned relating to said improvements and the history thereof; and generally assist said Assignee, its successors, assigns, or representatives in securing and maintaining proper patent protection for said improvements and for vesting title to said improvements, and all applications for patents and all patents on said improvements, in said Assignee, its successors, assigns, and legal representatives; and

covenant with said Assignee, its successors, assigns, and legal representatives that no assignment, grant, mortgage, license, or other agreement affecting the rights and property herein conveyed has been made to others by the undersigned, and that full rights to convey the same as herein expressed is possessed by the undersigned.

(2) In consideration of good and valuable consideration, the receipt of which is hereby acknowledged, I/we, the undersigned, Zhiping LIN, Wee SER and Guangbin HUANG of residence as listed, hereby sell, assign and transfer to Nanyang Technological University having a principal place of business at 50 Nanyang Avenue, Singapore 639798 ("Assignee"), and their successors, assigns, and legal representatives, his entire right, title, and interest for the United States and all foreign countries, in and to any and all improvements that are disclosed in the application for the United States Letters Patent that was filed as a Provisional application on 15 March 2010 and assigned Application No. 61/313,822 and is entitled Method Of Predicting The Survivability Of A Patient, and in and to said application and all patent applications, provisionals, divisional applications, continuation applications, continued prosecution applications, continuation-in-part applications, substitute applications, renewal applications, reissue applications, reexaminations, extensions, and all other patent applications that have been or shall be filed in the United States and all foreign countries on any of said improvements; and in and to all original patents, reissued patents, reexamination certificates, and extensions, that have been or shall be issued in the United States and all foreign countries on said improvements; and in and to all rights of priority resulting from the filing of said United States application;

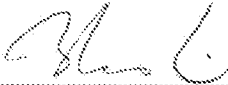

agree that said Assignee may apply for and receive a patent or patents for said improvements in its own name; and that, when requested, without charge to, but at the expense of, said Assignee, its successors, assigns, and legal representatives, to carry out in good faith the intent and purpose of this Assignment, the undersigned will execute all patent applications, divisional applications, continuation applications, continued prosecution applications, continuation-in-part applications, substitute applications, renewal applications, reissue applications, reexaminations, extensions and all other patent applications on any and all said improvements; execute all rightful oaths, assignments, power of attorney, and other papers; communicate to said Assignee, its successors, assigns, and representatives all facts known to the undersigned relating to said improvements and the history thereof; and generally assist said Assignee, its successors, assigns, or representatives in securing and maintaining proper patent protection for said improvements and for vesting title to said improvements, and all applications for patents and all patents on said improvements, in said Assignee, its successors, assigns, and legal representatives; and

covenant with said Assignee, its successors, assigns, and legal representatives that no assignment, grant, mortgage, license, or other agreement affecting the rights and property herein conveyed has been made to others by the undersigned, and that full rights to convey the same as herein expressed is possessed by the undersigned.
