ASSIGNMENT

WE, SCOT HORST of Kutztown, Pennsylvania, MAHESH RAMANUJAM of Durham, North Carolina, DHRUV GAMI of Pittsburgh, Pennsylvania, and S. RICHARD FEDRIZZI of Syracuse, New York, have invented the inventions described in United States Utility Patent Application Serial No. 14/213,990 entitled "Systems, Devices, Components and Methods for Dynamically Displaying Performance Scores Associated with the Performance of a Building or Structure" to Horst et al., filed on March 14, 2014, in the United States Patent and Trademark Office.

The ASSIGNEE, United States Green Building Council ("USGBC"), of 2101 L Street, NW, Suite 500, Washington, D.C. 20037, U.S.A., desires to secure the entire right, title and interest therein.

For good and valuable consideration, the receipt and sufficiency of which we each hereby acknowledge, WE EACH HEREBY ASSIGN TO THE ASSIGNEE:

The entire right, title and interest in said inventions in the above-identified United States patent application and in all design, utility, divisional, continuation, and continuation-in-part patent applications corresponding thereto, or reissues or extensions of Letters Patent or Patents granted thereon, and in all corresponding applications filed in countries foreign to the United States, and in all patents, copyrights, industrial design registrations, and/or trademark registrations issuing thereon in the United States and Foreign countries.

The right to file foreign patent, industrial design and trademark applications on said invention in its own name, wherever such right may be legally exercised, including the right to claim the benefits of the International Convention for such applications.

Assignment for U.S. Utility Patent Application Serial No. 14/213,990 entitled "Systems, Devices, Components and Methods for Dynamically Displaying Performance Scores Associated with the Performance of a Building or Structure" to Horst et al. filed March 15, 2013.

We each hereby authorize and request the United States Commissioner of Patents and Trademarks, and such Patent Office officials in foreign countries as are duly authorized by their patent, copyright, trademark or industrial design laws to issue patents, to issue any and all patents, copyrights, trademarks, and/or industrial design registrations on said invention to the Assignee as the owner of the entire interest, for the sole use and benefit of the said Assignee, its successors, assigns and legal representatives.

We each hereby agree, without further consideration and without expense to any of us, to sign all lawful papers and to perform all other lawful acts which the Assignee may request of each of us to make this Assignment fully effective, including, by way of example but not of limitation, the following:

Prompt execution of all design, original, divisional, substitute, reissue, and other United States and foreign patent, trademark, copyright and/or industrial design registration applications on said invention, and all lawful documents requested by the Assignee to further the prosecution of any of such patent, trademark, copyright, and/or industrial design registration applications.

Cooperation to the best of our ability in the execution of all lawful documents, the production of evidence, nullification, reissue, extension, or infringement proceedings involving said invention.

This assignment and agreement shall be binding upon our heirs and legal representatives.

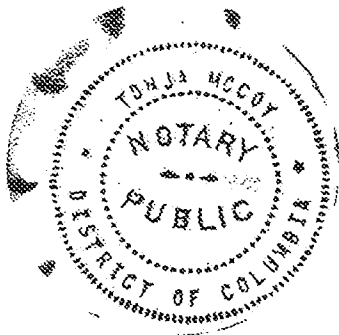

Assignment for U.S. Utility Patent Application Serial No. 14/213,990 entitled "Systems, Devices, Components and Methods for Dynamically Displaying Performance Scores Associated with the Performance of a Building or Structure" to Horst et al. filed March 15, 2013.

Executed at Washington, D.C., this 20 day of March, 2014.
