PATENT ASSIGNMENT AGREEMENT

This Patent Assignment Agreement ("Patent Assignment"), is by and between ROYAL APPLIANCE MANUFACTURING CO., a corporation incorporated under the laws of Ohio ("Assignor"), and TECHTRONIC FLOOR CARE TECHNOLOGY LIMITED, a company organized under the laws of the British Virgin Islands ("Assignee").

WHEREAS, Assignor owns all right, title and interest in and to certain Patent Rights (as defined below) for each of the inventions as described in each of the patents and patent applications as set forth in Schedules A and B attached hereto and made a part hereof;

WHEREAS, Assignor and Assignee are parties to that certain RAMC – Trademarks and Patents Asset Purchase Agreement, dated as of December 31, 2009 (the "Purchase Agreement"), pursuant to which Assignor has agreed to sell, assign, convey, transfer and convey to Assignee the Assets (as defined in the Purchase Agreement) and all of its right, title and interest therein including, without limitation, the Patent Rights;

WHEREAS, Assignee desires for Assignor to sell, assign, convey, transfer and deliver to Assignee all right, title and interest in and to the Patent Rights; and

WHEREAS, the parties wish to execute and deliver this Patent Assignment for the purpose of assigning the Patent Rights from Assignor to Assignee.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor does hereby sell, assign, convey, transfer and deliver to Assignee, *nunc pro tunc*, effective as of December 31, 2009, all right, title and interest in, to and under the Patent Rights, the same to be held and enjoyed by Assignee for its own use and benefit, and for the use and benefit of its successors, assigns or other legal representatives, fully and entirely as if the same would have been held and enjoyed by Assignor if this Assignment had not been made. As used in this Assignment, "Patent Rights" shall mean all patents and patent applications set forth in Schedules A and B attached hereto, any inventions described therein, all patent rights and rights of priority, all patent disclosures, improvements and all statutory invention registrations, including without limitation any United States, international, and foreign rights in patents, patent applications, provisional patents and applications, rights of priority and inventions covered thereby, and all continuing applications, reissues, divisions, continuations, continuations in part, extensions, renewals and reexaminations of any of the foregoing in the United States and throughout the world to the full end of the term or terms for which any letters patents based on any of the foregoing issue, together with the right to sue, counterclaim and recover damages and profits and all other remedies for claims of past, present and future infringement thereof, and all income, royalties, damages, and payments now or hereafter due or payable with respect to the Patent Rights.

Assignor hereby agrees to execute, at Assignee's expense, such additional documents as Assignee may request to register and otherwise give full effect to and perfect the rights of Assignee under this Patent Assignment in and to the Patent Rights worldwide, including all documents necessary to register in the name of Assignee the assignment of the Patent Rights with the United States Patent and Trademark Office and, with respect to any equivalent foreign rights, with any other appropriate international or international office or registrar.

IN WITNESS WHEREOF, the undersigned have executed this Patent Assignment.
