ST PAUL, MN 55144

Dear Sir,

Assignment of Patents from Pacific Lithium New Zealand Limited (PLNZ) to 3M

In relation to your acquisition of the above-named patents I advise as follows:

- I was one of two directors of a New Zealand company, Madison Capital Limited (MCL), which in the 2001 year or thereabouts acted as a bare trustee in borrowing funds from various parties and on lending those funds to ILION Technology Corporation ("ILION").
- MCL accepted various patents held by ILION as security for the borrowings.
- Subsequently the lenders accepted shares in ILION as repayment for the borrowings. The security for the patents should have been released by MCL at that time but it appears this was not recorded.
- As MCL had no assets or liabilities it was struck off the register of companies. I attach an extract from that register for your information.

In final confirmation I advise MCL has no legal or beneficial interest in any patents previously held by ILION and subsequently assigned to PLNZ.

Yours faithfully

Graham Brand
Principal
