NOTICE AND CONFIRMATION OF GRANT OF
SECURITY INTEREST IN PATENTS

NOTICE AND CONFIRMATION OF GRANT OF SECURITY INTEREST IN PATENTS (the "Agreement") dated as of April 9, 2014, is made by ALLIED TUBE & CONDUIT CORPORATION, a Delaware corporation having a principal place of business at 16100 S. Lathrop Avenue, Harvey, Illinois 60426 (the "Grantor"), in favor of DEUTSCHE BANK AG, NEW YORK BRANCH, having a principal place of business at 609 Fifth Avenue, New York, NY 10017, as Collateral Agent (the "Agent") for itself and the banks and other financial institutions (the "Lenders"), from time to time parties to the First Lien Credit Agreement, dated as of April 9, 2014 (as amended, amended and restated, waived, supplemented or otherwise modified from time to time, together with any agreement extending the maturity of, or restructuring, refunding, refinancing, or increasing the Indebtedness under such agreement or successor agreements, the "Credit Agreement"), among Borrower, the Collateral Agent, the Administrative Agent and the other parties thereto.

WHEREAS, pursuant to the Credit Agreement, the Lenders have severally agreed to make extensions of credit to the Borrower upon the terms and subject to the conditions set forth therein;

WHEREAS, in connection with the Credit Agreement, the Granting Parties have executed and delivered a Guarantee and Collateral Agreement, dated as of the date hereof, in favor of the Agent (as amended, amended and restated, waived, supplemented or otherwise modified from time to time, the "Collateral Agreement");

WHEREAS, pursuant to the Collateral Agreement, the Grantor granted to the Agent for the benefit of the Secured Parties a security interest in all of its Intellectual Property, including the Patents; and

WHEREAS, the Grantor has duly authorized the execution, delivery and performance of this Agreement.

NOW THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, and in order to induce the Lenders to make their respective extensions of credit to Borrower under the Credit Agreement, the Grantor agrees, for the benefit of the Secured Parties, as follows:

SECTION 1. Definitions. Unless otherwise defined herein or the context otherwise requires, capitalized terms used in this Agreement, including its preamble and recitals, have the meanings provided or provided by reference in the Credit Agreement or the Collateral Agreement.

SECTION 2. Confirmation of Grant of Security Interest. The Grantor hereby confirms that, subject to existing licenses to use the Patents granted by the Grantor in the ordinary course of its business, pursuant to the Collateral Agreement it granted to the Agent, for the benefit of the Secured Parties, a security interest in all of the Patents of the Grantor (including, without limitation, those items listed on Schedule I hereto) and to the extent not otherwise included, all Proceeds and products of any and all of the Patents, as collateral security for the prompt and complete payment and performance when due (whether at the stated maturity, by acceleration or otherwise) of the Obligations of the Borrower, except that no security interest is or will be granted pursuant hereto in any right, title or interest of the Grantor under or in any Patent License for so long as, and to the extent that, the granting of such a security interest pursuant hereto would result in a breach, default or termination of such Patent License.

SECTION 3. Purpose. This Agreement has been executed and delivered by the Grantor for the purpose of recording the grant of a security interest with the United States Patent and Trademark Office. This Agreement is expressly subject to the terms and conditions of the Collateral Agreement, the terms and conditions of which are incorporated herein by reference. To the extent that there is any conflict between this Agreement and the Collateral Agreement, the Collateral Agreement shall control in all respects. The Collateral Agreement (and all rights and remedies of the Lenders thereunder) shall remain in full force and effect in accordance with its terms.

SECTION 4. Acknowledgment. The Grantor does hereby further acknowledge and affirm that the rights and remedies of the Lenders with respect to the security interest in the Patents are more fully set forth in the Credit Agreement and the Collateral Agreement, and are incorporated herein by reference.

SECTION 5. Counterparts. This Agreement may be executed in counterparts, each of which will be deemed an original, but all of which together constitute one and the same original.
