ASSIGNMENT

This Assignment is made by:

Martinus J. L. M. Wijffels ("Assignor"), Versterplein 3, Vught, NL 5262AA
and,

Anatech B.V. ("Assignee"), having a principal place of Nieuwstadterweg 3, 6136
KN Sittard, NL.

Assignor, as named inventor on a patent application entitled "Sensor for thermal analysis and systems including same," ("the Invention") filed on March 31, 2008, under Application Serial No. 12/058,921, do hereby sell, assign and transfer unto said Assignee and its successors and assigns, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor's entire right, title, and interest in and to, including all future-acquired rights, for the United States of America and all foreign countries including all rights of priority under the International Convention for the Protection of Industrial Property, certain inventions or improvements in:

- (i) the Invention;
- (ii) the applications and any divisions, continuations, continuations-in-part, re-examinations, re-issues, extensions, and any application based in whole or in part thereon (the "Applications"); and,
- (iii) any Letters Patent that may be granted for the Invention throughout the world, including re-issues based on opposition and any Letters Patent based in whole or in part on the Applications;

with the right to file foreign applications directly in the name of the Assignee, and, Assignor further assigns: (i) Assignors' right to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise, and, (ii) the right to pursue any provisional rights and the right to sue for past infringement.

Assignor agrees that, upon request and without further compensation, but at no expense to Assignor, Assignor and Assignor's legal representatives and assigns will do all lawful acts, including the execution of papers, the making of oaths, the participation in interference proceedings, and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing, and/or enforcing Letters Patent in the United States and throughout the world for the Invention, the Applications, and any Letters Patent granted for the Invention throughout the world.

Assignor represents and warrants that Assignor has not granted and will not grant to others any rights inconsistent with the rights granted by Assignor herein.

Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States and all foreign countries to issue any Letters Patent granted for the Invention, whether on the Applications or on any subsequently filed divisional, continuation, continuation-in-part or reissue application, to Assignee, its successors and assigns, as the assignee of the entire interest in the Invention.
