PATENT

ASSIGNMENT

WHEREAS, **VelociData, Inc.**, a corporation of the State of Delaware, having its principal place of business at 345 Marshall Ave., Suite 102, St. Louis, MO 63119 (hereinafter "VelociData"), owns the patents and patent applications identified on Schedule A attached hereto and the inventions disclosed therein (hereinafter, collectively, the "Patent Rights"); and

WHEREAS, **IP Reservoir, LLC**, a limited liability company of the State of Delaware, having its principal place of business at 349 Marshall Ave., Suite 100, St. Louis, MO 63119 (hereinafter "IPR"), is desirous of acquiring the entire right, title and interest in and to said Patent Rights.

NOW THEREFORE, in consideration of the sum of One Dollar (\$1.00) to it in hand paid, and other good and valuable consideration, the receipt and adequacy of all of which are hereby acknowledged, VelociData has sold, assigned and transferred and does hereby sell, assign and transfer unto IPR, its successors or assigns, its entire right, title and interest in and to said Patent Rights and improvements as the same are disclosed in said Patent Rights, in and to any and all letters patent and applications filed therefor, including provisionals, non-provisionals, divisionals, continuations, reissues, reexaminations and extensions to be obtained therefor in the United States and all foreign countries; and it further agrees to cooperate with IPR in the obtaining and sustaining of any and all such letters patent of the Patent Rights as the assignee may desire to apply for.

The Commissioner of Patents or other proper official is hereby authorized and requested to issue said Patent Rights to IPR in accordance with this Assignment.

VelociData hereby authorizes and requests the attorneys of record in said Patent Rights to insert in this Assignment the serial number, filing date, and date of execution of any items of said Patent Rights for the purposes of recording this Assignment.

For said considerations, VelociData hereby agrees, upon the request of IPR, to execute any provisional, non-provisional, divisional, continuation, continuation-in-part or substitute application for said Patent Rights, and any oath or affidavit relating thereto, and any application for the reissue or extension of any letters patent that may be granted upon said Patent Rights, and, in the event of any application or letters patent of the Patent Rights becoming involved in an interference, to cooperate to the best of its ability in the matters of preparing and executing the preliminary statement and giving and producing evidence in support thereof. VelociData agrees to perform, upon request, any affirmative acts to obtain letters patent from the Patent Rights and vest in IPR all rights therein, whereby said Patent Rights will be held and enjoyed by IPR, to the full end of the term for which said Patent Rights may be granted as fully and entirely as the same would have been held and enjoyed by VelociData if this Assignment had not been made.

And for said consideration, VelociData hereby assigns to IPR the entire right, title and interest in said Patent Rights for all foreign countries, including all priority rights, and agrees to execute, at the request of IPR, all documents in connection with any application for foreign letters patent within the Patent Rights.

IN WITNESS WHEREOF, I have hereunto set my hand the 9th day of May, 2013.
