## ASSIGNMENT

WHEREAS, WE, KEVIN P. MAGEE, a citizen of the United States, residing in Dallas, Texas and ALAN W. NUGENT, a citizen of the Australia, residing in Dallas, Texas, have made certain inventions and designs (the "Inventions") described in U.S. Patent Application No. 14/199,993, filed on March 6, 2014 and titled "Fetal Intervention Using Magnetically-Guided Navigation" (the "Application").

WHEREAS, we previously have assigned or agreed to assign all rights to the Inventions, and all patents thereon, to FETAL CARE CONSULTANTS, LLC (hereinafter referred to as ASSIGNEE), a Delaware limited partnership, having a place of business at 411 North Washington Avenue, Suite 3300, Dallas, Texas 75246:

NOW, THEREFORE, in fulfillment of our obligation, and for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged by us, we confirm that we have assigned, sold, transferred and set over, and, to the extent we have not, by these presents do assign, sell, transfer and set over, unto said ASSIGNEE, and its successors and assigns, the entire right, title and interest in and to (a) the Inventions and all rights throughout the world arising therefrom; (b) the Application and all non-provisional, divisional, continuation, reissue, and any other application claiming priority to, or the benefit of, the Application; (c) all patents (including utility patents, patents of addition, utility models, designs, and corresponding registration rights, without limitation) that issue from the Application and applications claiming priority to, or the benefit of, the Application, as well as all patents naming any of us as an inventor that claim any of the Inventions, which patents include all reissues, renewals, registrations, and extensions thereof, for the United States, its territories and possessions and all foreign countries; (d) the right to file corresponding applications for patent on said Invention in any and all foreign countries; and (e) the right to claim priority under any and all treaties and conventions, including the Paris Convention for the Protection of Industrial Property, arising from the Application and all corresponding applications, and any division, continuation or substitution thereof, the same to be held and enjoyed by ASSIGNEE, its assigns and successors, as fully and entirely as the same would have been held and enjoyed by me, had this Assignment not been made.

We will, at any time upon the request and at the expense of said ASSIGNEE, execute and deliver any and all papers and do all lawful acts that may be necessary or desirable, in the opinion of said ASSIGNEE, to enable and assist said ASSIGNEE to (a) obtain patents, both domestic and foreign, on said Inventions, including without limitation execution of assignments of applications and priority rights and powers of attorney; (b) establish, maintain and secure title in said ASSIGNEE, its successors and assigns, to said Inventions, Application and patents, including making such title of lawful public record; and (c) defend, establish or otherwise preserve the validity of said patents against any and all infringers, and perform such other acts as are necessary to give full force and effect to the foregoing assignment.

We represent and covenant that no assignment, mortgage, sale, license, pledge, encumbrance or alienation of the Inventions, the Application, or any other right assigned hereunder, has been or will be made or entered into which would conflict with the assignment thereof to ASSIGNEE.

We hereby authorize and request the Director of the United States Patent and Trademark Office to issue all patents based on the Application and each division, continuation, substitution, reissue, renewal and extension thereof to said ASSIGNEE, its successors and assigns.
