ASSIGNMENT

WHEREAS, Daniel Py having an address at 1 Helena Avenue, Larchmont, New York 10538 ("Assignor"), is the current owner of the inventions that are the subject of the patents and patent applications listed on the attached Schedule and incorporated herein together with the associated know-how.

WHEREAS, Dr. Py Institute LLC, a Connecticut limited liability company and having an address at 201 Housatonic Avenue, New Milford, Connecticut 06776 ("Assignee"), desires to acquire the inventions, patents and applications listed on said Schedule together with the associated know-how.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, effective as of March 13, 2014, Assignor hereby assigns and transfers to Assignee, its successors, assigns and legal representatives, Assignor's entire right, title and interest in the United States and the World in and to said inventions, patents and applications listed on said Schedule (which may be amended from time to time to update the status of matters thereon, to include any subsequently filed related or foreign counterpart applications, and otherwise in accordance with the parties' intentions) together with the associated know-how, including the full and exclusive rights to those inventions, applications and patents, and to any and all inventions described in those applications and patents for the United States, its territorial possessions and all foreign countries as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made, and the entire right, title and interest in and to any and all Letters Patents which may be granted therefor in the United States, its territorial possessions and all foreign countries; and in and to any and all continuations, continuations-in-part, divisions, substitutes, reissues, and extensions thereof, and all other applications for Letters Patents relating thereto which have been or shall be filed in the United States, its territorial possessions and any foreign countries, and all rights, including all priority rights, under any of the international conventions, unions, agreements, acts, and treaties, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made; together with all claims for damages by reason of past infringement or misappropriation of the inventions, patents, applications and associated know-how, with the right to sue for, and collect the same, for Assignee's own use and benefit, and for the use and benefit of Assignee's successors, assigns and other legal representatives;

AND FURTHER, Assignor hereby authorizes Assignee to apply for and receive Letters Patents for such protection in its own name, in the United States, its territorial possessions, and all foreign countries; and that, when requested to carry out in good faith the intent and purpose of this Assignment, at the expense of said Assignee, Assignor will execute or cause to be executed all rightful oaths, assignments, powers of attorney and other papers necessary to secure, maintain, and enforce the patent protection for the inventions, and for vesting title to the inventions and all applications for patents on the inventions in said Assignee, its successors, assigns and legal representatives.
