NUNC PRO TUNC PATENT ASSIGNMENT

WHEREAS, AT&T Labs, Inc., (hereinafter referred to as "AT&T Labs"), a Delaware corporation with an address of 9505 Arboretum Blvd., Austin, TX 78759-6392, and AT&T Intellectual Property I, L.P., (hereinafter referred to as "AT&T Intellectual Property I"), a Nevada Partnership, with an address of 675 W. Peachtree Street, Atlanta, GA 30308 (AT&T Labs and AT&T Intellectual Property I, hereinafter collectively referred to as "the Parties") agree that the inventors of each of the Letters Patents and/or patent applications identified in ATTACHMENT A were under an obligation to assign all right, title, and interest to the inventions described therein to AT&T Intellectual Property I, or a predecessor in interest to AT&T Intellectual Property I, at the time of such invention; and

WHEREAS, through a clerical error, the inventors executed documents that purported to assign all right, title and interest to the inventions to AT&T Labs; and

WHEREAS, the Parties agree that the purported assignments to AT&T Labs were defective when executed by the inventors; and

WHEREAS, the Parties agree that AT&T Intellectual Property I therefore owns the entire right, title, and interest in and to said inventions, patents, and applications including the right to sue for past infringement; and

WHEREAS, to the extent AT&T Labs owns any right, title, or interest in or to the inventions, patents, and applications, AT&T Labs desires to assign any such right, title, or interest to AT&T Intellectual Property I including the right to sue for past infringement; and

NOW, THEREFORE, for and in consideration of Ten United States Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, AT&T Labs assigns to AT&T Intellectual Property I *nunc pro tunc*, all right, title and interest including the right to sue for past infringement in and to said applications and all patents which may be granted therefor, and all divisions, reissues, reexaminations, and continuations thereof; and AT&T Labs hereby authorizes and requests the Commissioner of Patents and Trademarks to issue all patents for said invention, or patents resulting therefrom, insofar as AT&T Labs's interest is concerned, to AT&T Intellectual Property I.

IN WITNESS WHEREOF, the parties have caused this Patent Assignment to be executed on the dates and in the capacities shown below.
