ASSIGNMENT

THIS ASSIGNMENT is made and entered effective as of April 15, 2014.

WHEREAS, JEFFREY CIUDAJ, an individual located at P.O. Box 94, Angwin, California 94508 and MARC E. HANKIN, an individual located at 11414 Thurston Circle, Los Angeles, California 90049 (hereinafter collectively referred to as "Assignors"), believe themselves to be the record owners of the invention as disclosed and claimed in U.S. Patent No. 8,381,437, issued on February 26, 2013, for a new and useful IRRIGATION DEVICE AND METHOD OF PROMOTING DEEP ROOT GROWTH OF A PLANT;

WHEREAS, DEEP ROOT IRRIGATION, LLC, a California limited liability company, having a place of business at P.O. Box 114, Angwin, California 94508 (hereinafter "Assignee"), desires to acquire by formal, recordable assignment, the entire right, title, and interest in and to the invention and Letters Patent that is granted for the invention in the United States and throughout the world;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors have sold, assigned, and transferred, and by these present do hereby sell, assign, and transfer, unto Assignee, the entire right, title, and interest in and to the invention and Patent that is granted for the invention in the United States and throughout the world, including the right to file foreign applications directly in the name of Assignee and to claim for any such foreign Patent applications any priority rights to which such applications are entitled, pursuant to international conventions, treaties, or otherwise, including the right to sue for any and all past infringement(s) of the foregoing Patent.

Further, Assignors agree that, upon request and without further compensation, but at no expense to Assignors, they and their legal representatives and assigns will perform all lawful acts, including the execution of papers and the giving of testimony, that might be necessary or desirable for obtaining, sustaining, reissuing, or enforcing Letters Patent in the United States and throughout the world for the invention, and for perfecting, recording or maintaining the title of Assignee, its successors and assigns, to the invention and Letters Patent granted for the invention in the United States and throughout the world. In addition, Assignors do hereby make, constitute, and appoint Assignee, or any officer or agent of Assignee, as Assignors' true and lawful attorney-in-fact, with power of substitution, to enforce every such contract, permit, license, claim, demand, or right, with respect to the Assigned invention and Patent granted for the invention in the United States and throughout the world, and to do any and all things necessary to be done as fully and effectually as Assignors might or could do, and hereby ratify all that said attorney-in-fact shall lawfully do or cause to be done by virtue hereof. This power of attorney shall be irrevocable.

Assignors represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted by this Assignment. Assignors further represent and warrant that they do not know of any improvements to the invention, other than what has been disclosed in the Assigned Patent and/or has been communicated to the patent attorney(s) in prosecuting said Assigned Application. Assignors have not filed any patent applications relating in any way to the Assigned Application, other than what has been disclosed in said Assigned Patent, and agree not to do so.

Assignors authorize and request the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Letters Patents granted for the invention, whether on any subsequently filed division, continuation, continuation-in-part, or reissue application, to Assignee, or its successors or assigns, as the assignee of the entire interest in the invention.

IN WITNESS WHEREOF, and intending to bind themselves, their heirs, and assigns, Assignors have executed this Assignment.
