ASSIGNMENT OF LETTERS PATENT AND APPLICATIONS FOR LETTERS PATENT

THIS ASSIGNMENT OF LETTERS PATENT AND APPLICATIONS FOR LETTERS PATENT (this "Assignment") is made this 17th day of June, 2005, by MetaTV, Inc. a Delaware corporation ("Seller").

WITNESSETH:

WHEREAS, Seller is the sole owner by assignment of the entire right, title and interest in, to and under the national and multinational statutory invention registrations, patents and patent applications listed in Schedule A (including all reissues, divisions, continuations, continuations-in-part, extensions and reexaminations thereof) registered or applied for in the United States and all other nations throughout the world; all improvements to the inventions disclosed in each such registration, patent or patent application; all rights in all of the foregoing provided by treaties, conventions and common law and all rights to sue or recover and retain damages and costs and attorneys' fees for past, present and future infringement or misappropriation of any of the foregoing (collectively, the "Patents");

WHEREAS, Double C Technologies, L.L.C., a Delaware limited liability company ("Buyer") is desirous of acquiring the entire worldwide right, title and interest in, to and under the Patents.

NOW, THEREFORE, in consideration of the sum of One Dollar (\$1.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and pursuant to the Asset Purchase Agreement dated as of June 17, 2005 (the "Agreement") between Seller and Buyer, the parties, intending to be legally bound, agree as follows:

1. Seller represents and warrants that it is the sole and exclusive owner of the Patents; none of the Patents have been held or adjudicated invalid or cancelled nor is it subject to any lien, security interest or other encumbrances; except as set forth in the Agreement between Seller and Buyer, no action, suit, proceeding or challenge is pending, or to Seller's knowledge, threatened with respect to any of the Patents; and there are no fees or any similar actions or filings due within ninety (90) days of the Closing Date (as defined in the Agreement) that could affect the validity of or title in or to any of the Patents.

2. Seller has sold, assigned and transferred, and does hereby sell, assign and transfer unto the Buyer, the entire right, title and interest in and to the Patents and all letters patents in all countries of the world based thereon or corresponding thereto, and all divisional, continuing, continuation-in-part, and reissue applications therefor, and the patents which may be thereupon issued, including any and all rights to file applications and receive patents in all countries of the world, the same to be held and enjoyed by the Buyer to the full end of the term for which said letters patent may be granted, as fully and entirely as the same would have been held and enjoyed by Seller had this assignment and sale not been made; and Seller hereby agrees to sign all necessary papers and do all lawful acts reasonably requisite in connection with the prosecution, assignment, enforcement and disclaimer of each and every patent application based upon the Patents, without further compensation, but at the expense of the Buyer or its successors and assigns, and Seller assigns to the Buyer all rights to sue for infringement, including past infringement if any, of any patent or patents based upon or corresponding to the Patents.

3. Seller agrees that, upon request it will, at any time without charging a fee to Buyer but at Buyer's expense for any reasonable costs incurred, furnish all necessary documentation relating to or supporting chain of title and to confirm Buyer's ownership of all right, title, and interest in and to the Patents, provide testimony at any time in connection with any proceedings affecting the right, title, interest or benefit of Buyer in, to or under the Patents and sign and deliver all papers, take all rightful oaths, and do all acts which may be reasonably necessary for vesting title to the Patents in Buyer, its successors, assigns and legal representatives or nominees. In the event Seller fails to execute such documentation after a reasonable amount of time, Seller hereby appoints Buyer with full and complete authority and power of attorney to act in the stead of Seller and to execute and record as its attorney-in-fact such transfer documentation.

4. Seller does hereby authorize and request the officials of all countries in which patents relating to the Patents are now or in the future will be issued to issue to the Buyer all of Seller's entire right, title and interest in and to the same for the sole use and enjoyment of the Buyer, its successors and assigns.

5. Nothing herein shall affect, or be deemed to affect, the representations, warranties, covenants, and indemnities contained in the Agreement.

IN WITNESS WHEREOF, Seller has caused this Assignment to be executed.
